National Flood Insurance Program

# Elevation Certificate and Instructions

This certificate provides information regarding the National Flood Insurance Program (NFIP) and the Elevation Certificate (EC) process. It is intended to assist policyholders in understanding the requirements for obtaining an Elevation Certificate and the associated costs. The EC is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Obtain an Elevation Certificate:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Costs:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Benefits:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Instructions:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Additional Information:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Conclusion:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Disclaimer:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

**Additional Information:** The Elevation Certificate is a document that provides information on the elevation of the building's lowest flood-prone area relative to the base flood elevation (BFE). The EC is required for buildings in Special Flood Hazard Areas (SFHAs) that are located in areas with a BFE of 1 foot or more above the ground level. The EC is also required for buildings in areas with a BFE of 1 foot or more above the ground level that are located in areas with a BFE of 1 foot or more above the ground level.

OMB Control No. 1660-0008  
Expiration Date: 06/30/2026

## ELEVATION CERTIFICATE AND INSTRUCTIONS

### PAPERWORK REDUCTION ACT NOTICE

Public reporting burden for this data collection is estimated to average 3.75 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting this form. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20742, Paperwork Reduction Project (1660-0008). **NOTE: Do not send your completed form to this address.**

### PRIVACY ACT STATEMENT

**Authority:** Title 44 CFR § 61.7 and 61.8.

**Principal Purpose(s):** This information is being collected for the primary purpose of documenting compliance with National Flood Insurance Program (NFIP) floodplain management ordinances for new or substantially improved structures in designated Special Flood Hazard Areas. This form may also be used as an optional tool for a Letter of Map Amendment (LOMA), Conditional LOMA (CLOMA), Letter of Map Revision Based on Fill (LOMR-F), or Conditional LOMR-F (CLOMR-F), or for flood insurance rating purposes in any flood zone.

**Routine Use(s):** The information on this form may be disclosed as generally permitted under 5 U.S.C. § 552a(b) of the Privacy Act of 1974, as amended. This includes using this information as necessary and authorized by the routine uses published in DHS/ FEMA-003 – *National Flood Insurance Program Files System of Records Notice* 79 Fed. Reg. 28747 (May 19, 2014) and upon written request, written consent, by agreement, or as required by law.

**Disclosure:** The disclosure of information on this form is voluntary; however, failure to provide the information requested may impact the flood insurance premium through the NFIP. Information will only be released as permitted by law.

### PURPOSE OF THE ELEVATION CERTIFICATE

The Elevation Certificate is an important administrative tool of the NFIP. It can be used to provide elevation information necessary to ensure compliance with community floodplain management ordinances, to inform the proper insurance premium, and to support a request for a LOMA, CLOMA, LOMR-F, or CLOMR-F.

The Elevation Certificate is used to document floodplain management compliance for Post-Flood Insurance Rate Map (FIRM) buildings, which are buildings constructed after publication of the FIRM, located in flood Zones A1–A30, AE, AH, AO, A (with Base Flood Elevation (BFE)), VE, V1–V30, V (with BFE), AR, AR/A, AR/AE, AR/A1–A30, AR/AH, AR/AO, and A99. It may also be used to provide elevation information for Pre-FIRM buildings or buildings in any flood zone.

As part of the agreement for making flood insurance available in a community, the NFIP requires the community to adopt floodplain management regulations that specify minimum requirements for reducing flood losses. One such requirement is for the community to obtain the elevation of the lowest floor (including basement) of all new and substantially improved buildings, and maintain a record of such information. The Elevation Certificate provides a way for a community to document compliance with the community's floodplain management ordinance.

Use of this certificate does not provide a waiver of the flood insurance purchase requirement. Only a LOMA or LOMR-F from the Federal Emergency Management Agency (FEMA) can amend the FIRM and remove the federal mandate for a lending institution to require the purchase of flood insurance. However, the lending institution has the option of requiring flood insurance even if a LOMA/LOMR-F has been issued by FEMA. The Elevation Certificate may be used to support a LOMA, CLOMA, LOMR-F, or CLOMR-F request. Lowest Adjacent Grade (LAG) elevations certified by a land surveyor, engineer, or architect, as authorized by state law, will be required if the certificate is used to support a LOMA, CLOMA, LOMR-F, or CLOMR-F request. A LOMA, CLOMA, LOMR-F, or CLOMR-F request must be submitted with either a completed FEMA MT-EZ or MT-1 application package, whichever is appropriate. If the certificate will only be completed to support a LOMA, CLOMA, LOMR-F, or CLOMR-F request, there is an option to document the certified LAG elevation on the Elevation Form included in the MT-EZ and MT-1 application.

This certificate is used only to certify building elevations. A separate certificate is required for floodproofing. Under the NFIP, non-residential buildings can be floodproofed up to or above the BFE. A floodproofed building is a building that has been designed and constructed to be watertight (substantially impermeable to floodwaters) below the BFE. Floodproofing of residential buildings is not permitted under the NFIP unless FEMA has granted the community an exception for residential floodproofed basements. The community must adopt standards for design and construction of floodproofed basements before FEMA will grant a basement exception. For both floodproofed non-residential buildings and residential floodproofed basements in communities that have been granted an exception by FEMA, a floodproofing certificate is required.

The expiration date on the form herein does not apply to certified and completed Elevation Certificates, as a completed Elevation Certificate does not expire, unless there is a physical change to the building that invalidates information in Section A Items A8 or A9, Section C, Section E, or Section H. In addition, this form is intended for the specific building referenced in Section A and is not invalidated by the transfer of building ownership.

Additional guidance can be found in FEMA Publication 467-1, *Floodplain Management Bulletin: Elevation Certificate*.

**ELEVATION CERTIFICATE**

**IMPORTANT: MUST FOLLOW THE INSTRUCTIONS ON INSTRUCTION PAGES 1-11**

Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner.

SECTION A – PROPERTY INFORMATION	FOR INSURANCE COMPANY USE
A1. Building Owner's Name: <u>Level 10 Homes LLC</u>	Policy Number: _____
A2. Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No.: <u>106 Serenity Point Drive</u>	Company NAIC Number: _____
City: <u>Little River</u> State: <u>SC</u> ZIP Code: <u>29566</u>	
A3. Property Description (e.g., Lot and Block Numbers or Legal Description) and/or Tax Parcel Number: <u>PIN 350-06-04-0046, Lot 15 of Serenity Point</u>	
A4. Building Use (e.g., Residential, Non-Residential, Addition, Accessory, etc.): <u>Residential</u>	
A5. Latitude/Longitude: Lat. <u>33.847277 N</u> Long. <u>-78.665214 W</u> Horiz. Datum: <input type="checkbox"/> NAD 1927 <input checked="" type="checkbox"/> NAD 1983 <input type="checkbox"/> WGS 84	
A6. Attach at least two and when possible four clear color photographs (one for each side) of the building (see Form pages 7 and 8).	
A7. Building Diagram Number: <u>1A</u>	
A8. For a building with a crawlspace or enclosure(s):	
a) Square footage of crawlspace or enclosure(s): <u>n/a</u> sq. ft.	
b) Is there at least one permanent flood opening on two different sides of each enclosed area? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A	
c) Enter number of permanent flood openings in the crawlspace or enclosure(s) within 1.0 foot above adjacent grade: Non-engineered flood openings: <u>n/a</u> Engineered flood openings: <u>n/a</u>	
d) Total net open area of non-engineered flood openings in A8.c: <u>n/a</u> sq. in.	
e) Total rated area of engineered flood openings in A8.c (attach documentation – see Instructions): <u>n/a</u> sq. ft.	
f) Sum of A8.d and A8.e rated area (if applicable – see Instructions): <u>n/a</u> sq. ft.	
A9. For a building with an attached garage:	
a) Square footage of attached garage: <u>n/a</u> sq. ft.	
b) Is there at least one permanent flood opening on two different sides of the attached garage? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A	
c) Enter number of permanent flood openings in the attached garage within 1.0 foot above adjacent grade: Non-engineered flood openings: <u>n/a</u> Engineered flood openings: <u>n/a</u>	
d) Total net open area of non-engineered flood openings in A9.c: <u>n/a</u> sq. in.	
e) Total rated area of engineered flood openings in A9.c (attach documentation – see Instructions): <u>n/a</u> sq. ft.	
f) Sum of A9.d and A9.e rated area (if applicable – see Instructions): <u>n/a</u> sq. ft.	
SECTION B – FLOOD INSURANCE RATE MAP (FIRM) INFORMATION	
B1.a. NFIP Community Name: <u>Horry</u>	B1.b. NFIP Community Identification Number: <u>450104</u>
B2. County Name: <u>Horry</u>	B3. State: <u>SC</u> B4. Map/Panel No.: <u>45051C0606</u> B5. Suffix: <u>K</u>

## SECTION C – BUILDING ELEVATION INFORMATION (SURVEY REQUIRED)

- C1. Building elevations are based on:  Construction Drawings\*  Building Under Construction\*  Finished Construction  
\*A new Elevation Certificate will be required when construction of the building is complete.
- C2. Elevations – Zones A1–A30, AE, AH, AO, A (with BFE), VE, V1–V30, V (with BFE), AR, AR/A, AR/AE, AR/A1–A30, AR/AH, AR/AO, A99. Complete Items C2.a–h below according to the Building Diagram specified in Item A7. In Puerto Rico only, enter meters.  
Benchmark Utilized: Ward 1934 No 2, 1986 Vertical Datum: NAVD 1988 (51.98 ft.) NGVD 1929 (53.03 ft.)

Indicate elevation datum used for the elevations in items a) through h) below.

NGVD 1929  NAVD 1988  Other: \_\_\_\_\_

Datum used for building elevations must be the same as that used for the BFE. Conversion factor used?  Yes  No  
If Yes, describe the source of the conversion factor in the Section D Comments area.

- |                                                                                                                                             |             | Check the measurement used:              |                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------|-------------|------------------------------------------|---------------------------------|
| a) Top of bottom floor (including basement, crawlspace, or enclosure floor):                                                                | <u>12.6</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| b) Top of the next higher floor (see Instructions):                                                                                         | <u>24.3</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| c) Bottom of the lowest horizontal structural member (see Instructions):                                                                    | <u>n/a</u>  | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| d) Attached garage (top of slab):                                                                                                           | <u>12.2</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| e) Lowest elevation of Machinery and Equipment (M&E) servicing the building (describe type of M&E and location in Section D Comments area): | <u>11.7</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| f) Lowest Adjacent Grade (LAG) next to building: <input type="checkbox"/> Natural <input checked="" type="checkbox"/> Finished              | <u>11.8</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| g) Highest Adjacent Grade (HAG) next to building: <input type="checkbox"/> Natural <input checked="" type="checkbox"/> Finished             | <u>12.4</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |
| h) Finished LAG at lowest elevation of attached deck or stairs, including structural support:                                               | <u>10.8</u> | <input checked="" type="checkbox"/> feet | <input type="checkbox"/> meters |

## SECTION D – SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by state law to certify elevation information. I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

Were latitude and longitude in Section A provided by a licensed land surveyor?  Yes  No

Check here if attachments and describe in the Comments area.

Certifier's Name: Eric A. Perry License Number: 15180

Title: Eric Perry Registered Land Surveyor

Company Name: Eric A. Perry Land Surveyor

Address: 125 Ferry Box Court
