

Horry County HOME Consortium 2022-2023 Consolidated Annual Performance and Evaluation Report

DRAFT

Horry County
Community Development
100 Elm Street
Conway, SC 29526

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan.

91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The primary deliverable during the 2022-2023 program year was the development of decent, safe and affordable housing. Horry County spent \$918,815.61 on housing rehabilitation during this program year, completing 25 rehabs. In addition, 6 housing rehabilitation projects are currently underway. The average cost of housing rehabilitation was \$25,513.48. Housing activities promote the stability of neighborhoods not only by providing safe and affordable housing opportunities, but also through eliminating blight and safety hazards within distressed targeted neighborhoods.

Horry County expanded efforts to address impediments facing homeless individuals by providing case management services to homeless individuals. Housing Authority of Myrtle Beach utilized CDBG funding to provide utility and security deposits for eligible participants from its Mainstream voucher program (\$14,850.00). In total, 41 participants were assisted through the program. New Directions of Horry County utilized CDBG funds to provide homeless case management services at its walk-in center (\$21,321.08). SOS Care utilized CDBG funding to conduct a program to provide housing case management services for individuals with Autism and other developmental disabilities (\$41,776.58). Participants received housing case management to help secure housing opportunities. The program assisted a total of thirteen (13) participants during the program year. Finally, United Way of Horry County funded a community resource coordinator to connect low income individuals with available services throughout the County (\$48,969.34). A total of 138 people were served through the program.

The City of Conway allocated its funding toward the rehabilitation of the Smith-Jones community pool (\$272,764.82). The newly repaired facility serves a low income census block group and neighborhood. The project was completed in June 2023 and is now open to the public.

The City of Myrtle Beach completed public facility improvements at the Mary Canty Center during the 2022-2023 program year (\$96,324.59). The project consisted of parking and drainage improvements at the facility. The City of Myrtle Beach also completed infrastructure improvements along Grey Street (\$776,176.69). The project consisted of road and drainage improvements in an LMI community.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

Community Development prioritizes the rehabilitation of housing occupied by low-to-moderate income households. Horry County spent \$918,815.61 in CDBG funds, as well as \$128,441.00 in USDA funds, on housing rehabilitation during this program year. CDBG public services continue to assist Horry County non-profits that aid individuals in low income areas. Finally, adequate public facilities and improvements, including infrastructure and neighborhood revitalization, improve the living environments of residents of low-to-moderate income areas, and provide improved access to critical services. This is evidenced in the Wise Road resurfacing project in unincorporated Horry County.

Cumulative to date, Horry County has expended \$2,787,013.77 in CDBG-CV funds to prevent, prepare for, and respond to the Coronavirus. Activities included financial assistance to sixty-seven (67) qualifying small businesses impacted by the COVID-19 pandemic (\$1,476,298.71). Additionally, public services were funded through CDBG-CV to provide access to services whose availability was decimated by the impacts of Covid-19 substance, including substance abuse peer counseling (\$100,000.00), mental health services (\$277,649.16) and transportation to such services (\$76,141.94), and business development educational services (\$31,438.04). Other services funded through CDBG-CV included transportation to vaccination appointments and food pantry deliveries for households isolating due to Covid-19 (\$28,208.00).

ESG Accomplishments

Horry County's ESG subrecipient, ECHO, utilized \$48,176.43 in ESG funds to rapidly rehouse homeless individuals, \$33,386.51 for homeless prevention activities, \$42,113.41 for emergency shelter, \$4,194.60 for HMIS data management, and \$4,960.99 for administration. ECHO served 128 persons in Horry County through ESG funding during the 22-23 program year. 56.3% of the homeless individuals that ECHO assisted with ESG funding during the 2022-2023 left their delivery system by the end of this period. Horry County expended \$2,572.26 on administration of the ESG program for the 2022-2023 program year. Overall, \$135,404.20 was expended on ESG activities during the 2022-2023 program year.

In addition to the above funding, Horry County was awarded Emergency Rental Assistance (ERA) program funding through the U.S. Treasury. Horry County was awarded funding under both ERA 1 (\$10,708,257) and ERA 2 (\$8,300,000). In June 2022, Horry County received an additional \$10,000,000 in reallocated ERA 1 funds, and two additional tranches of ERA 2 awards in the amounts of \$1,536,411 and \$1,187,364.91). In order to implement this program, Horry County partnered with Eastern Carolina Housing Organization (ECHO). To date, Horry County has utilized ERA funding to provide in excess of 32,994 months of rental assistance to over 4,231 households.

Cumulative to date, Horry County has expended \$2,132,706.29 in ESG-CV funds to prevent, prepare for, and respond to the Coronavirus. Activities included homelessness prevention, rapid rehousing, emergency shelter, HMIS, and administration. Accomplishment reporting for ESG-CV has been submitted

through SAGE on a quarterly basis, in accordance with guidance and ESG-CV reporting requirements.

HOME Accomplishments

During the 2022-2023 program year, the Horry County HOME Consortium spent \$312,719.35 in total. These funds were used toward the completion of six (6) new homeownership units. An additional seven (7) homeowner new construction units are currently in progress. The Consortium also assisted seven (7) qualifying income-eligible households through tenant based rental assistance during the program year.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG	HOME	ESG
White	9	0	56
Black or African American	16	6	60
Asian	0	0	0
American Indian or American Native	0	0	0
Native Hawaiian or Other Pacific Islander	0	0	0
Multiple	0	0	12
Total	25	6	128
Hispanic	0	0	2
Not Hispanic	25	6	126

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Horry County Community Development provides assistance to a diverse group of beneficiaries that are low to moderate income. Beneficiary data for housing rehabilitation projects are measured at the household level, while beneficiary data for infrastructure projects is analyzed at the block group level. For 2022-2023, beneficiaries of completed home rehabilitation activities are 36.0% African American and 64.0% Caucasian. Additionally, households assisted were 32.0% very low income, 32.0% low income, and 36.0% moderate income. Total beneficiary figures for CDBG-funded projects indicated that 68.14% of beneficiaries were Caucasian, 28.76% of beneficiaries were African American, 1.77% were Asian, 0.44% were American Indian/Alaskan Native and Caucasian, and 0.88% were Black/African American and Caucasian. Total beneficiary figures for CDBG-funded projects indicated that 82.12% were extremely low income, 13.91% were low income, 3.31% were moderate income, and 0.66% were non-LMI. Total beneficiary figures for ESG indicated that 43.8% of beneficiaries were Caucasian, 46.9% of beneficiaries were African American, and 9.3% were of multiple racial descent.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	1,905,196	3,460,802
HOME	public - federal	1,238,643	312,719
ESG	public - federal	172,736	135,404

Table 3 - Resources Made Available

Narrative

Horry County Community Development expended \$3,460,802.04 in CDBG funds during the 2022-2023 program year, which encompassed multiple years of grant funding. During the 2022-2023 program year, Horry County made remarkable progress in addressing its waiting list of over 200 applicants for rehabilitation assistance. Currently, the County's waiting list totals approximately 60 households. In order to maximize the effectiveness of HUD funding, CDBG funds were leveraged with USDA Section 533 Housing Preservation Grant funds in rural areas of Horry County. This strategy allowed for additional households to be assisted that might not otherwise have been served. Additionally, the County identified referral agencies where possible to more quickly serve the households on its waiting list.

During the 2022-2023 program year, the Horry County HOME Consortium spent \$312,719.35 in total. These funds were used toward the completion of six (6) new homeownership units. Seven (7) additional new homeownership units are currently under construction and will be completed in 2023-2024. The Consortium also assisted seven (7) qualifying income-eligible households through tenant based rental assistance during the program year. The Consortium was within the 10% administration cap requirement at 2.94% for the program year.

Horry County's ESG subrecipient, ECHO, utilized \$48,176.43 in ESG funds to rapidly rehouse homeless individuals, \$33,386.51 for homeless prevention activities, \$42,113.41 for emergency shelter, \$4,194.60 for HMIS data management, and \$4,960.99 for administration. ECHO served 128 persons in Horry County through ESG funding during the 2022-2023 program year. 56.3% of the homeless individuals that ECHO assisted with ESG funding during the 2022-2023 left their delivery system by the end of this period. Horry County expended \$2,572.26 on administration of the ESG program for the 2022-2023 program year. Overall, \$135,404.20 was expended on ESG activities during the 2022-2023 program year.

Cumulative to date, Horry County has expended \$2,132,706.29 in ESG-CV funds to prevent, prepare for, and respond to the Coronavirus. Activities included homelessness prevention, rapid rehousing, emergency shelter, HMIS, and administration. Accomplishment reporting for ESG-CV has been submitted through SAGE on a quarterly basis, in accordance with guidance and ESG-CV reporting requirements.

Cumulative to date, Horry County has expended \$2,787,013.77 in CDBG-CV funds to prevent, prepare for, and respond to the Coronavirus. Activities included financial assistance to sixty-seven (67) qualifying small

businesses impacted by the COVID-19 pandemic (\$1,476,298.71). Additionally, public services were funded through CDBG-CV to provide access to services whose availability was decimated by the impacts of Covid-19 substance, including substance abuse peer counseling (\$100,000.00), mental health services (\$277,649.16) and transportation to such services (\$76,141.94), and business development educational services (\$31,438.04). Other services funded through CDBG-CV included transportation to vaccination appointments and food pantry deliveries for households isolating due to Covid-19 (\$28,208.00).

Table 4 – Identify the geographic distribution and location of investments

Narrative

Horry County focuses on concentrated redevelopment efforts in identified local target areas. One such

area, the Racepath community of Myrtle Beach, was designated as a Revitalization Area by Horry County Council in 2014. A County Revitalization Plan was developed with citizen input and through staff analysis of housing and income data, demographic trends, and more. The plan details revitalization activities for the area including housing rehabilitation, roadway improvements, code enforcement, and policing efforts. The plan also identifies funding sources including HUD grants, state funds, and local dollars. Phase II of these improvements is currently in the procurement stage. The County is working to identify a contractor to complete the improvements at a price that meets applicable cost reasonableness requirements. Phase II will include drainage enhancements and roadway improvements, as well as the addition of sewer service along an additional section of Racepath Street. Phase III of the project is currently in the design and easement acquisition phase. Phase III will include drainage enhancements and roadway improvements along an additional section of Racepath Street subject to SCDOT jurisdictional oversight.

The following communities currently have Council-approved revitalization plans: Racepath, Bennett Loop, “Rebuild Conway” Revitalization Plan, and Central City Revitalization Plan (Myrtle Beach). Additional local target areas are expected to benefit from the revitalization plans in upcoming years. Development of a revitalization plan is anticipated for the Bucksport community of unincorporated Horry County as well. Emphasis on these target areas and their plans enables greater impact of redevelopment efforts through leveraging of diverse resources.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The County seeks to leverage CDBG funds with local, state, and private dollars. Federal resources are an important element for many of the County's housing, infrastructure, and neighborhood revitalization efforts. As a part of the sub-recipient application process, agencies are required to identify their leveraged funding amounts and sources.

Total leveraged funds for **CDBG 2022-2023** was: \$582,365.50.

Types/examples of additional resources are:

- **SOS Care** - \$13,550 in salary and benefits for a housing case manager.
- **New Directions** - \$17,570 in salary and benefits for a homeless case manager.
- **Housing Authority of Myrtle Beach** - \$118,376 in Mainstream rental vouchers.
- **Horry County Housing Rehabilitation** – USDA Housing Preservation Grant provided rehab assistance for low income households in rural areas of Horry County - \$128,441.00.
- **City of Conway** - \$304,428.50 in State funding allocations for Smith Jones Pool Rehabilitation construction costs.

ESG Match

Eastern Carolina Housing Organization utilized its Supportive Services for Veterans and Families (SSVF) grant award through the Veterans Administration (VA) as match for the Horry County Emergency Solutions Grant program. ECHO matched 100% of the ESG grant expenditures (\$135,404) with the SSVF grant. The SSVF grant funds the components of Rapid Rehousing, Homeless Prevention, HMIS, and Administration. The SSVF grant components include Personnel/Labor, Temporary Financial Assistance, Other Non-Personnel Provision and Coordination of Supportive Services, and Administrative Expenses.

HOME Match

HOME match requirements are typically 25% per funding year. While the HOME match requirement was waived for this program year, Horry County HOME consortium continues to make contributions to its match bank. Match for the HOME program was derived primarily from

construction costs leveraged with private funding, donated items, and sweat equity from volunteers through the development of new homeownership units by Habitat for Humanity of Horry County and Habitat for Humanity of Georgetown County.

Public Lands

Publically owned land was utilized in two projects during the 2022-2023 program year. The dilapidated Smith Jones pool is owned by the City of Conway and was rehabilitated during the program year. Additionally, the Mary C. Canty Center is owned by the City of Myrtle Beach. The facility's parking lot was expanded during the program year.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	1,163,232
2. Match contributed during current Federal fiscal year	1,235,000
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	2,398,232
4. Match liability for current Federal fiscal year	78,180
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	2,476,412

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

In 2022-2023, the tenth year of its ESG program, Horry County targeted \$135,404.20 on administration, rapid re-housing, homeless prevention, and emergency shelter efforts via the provision of affordable rental units.

During the 2022-2023 program year, the fifth year of the HOME program, the Horry County HOME Consortium spent \$312,719.35 in total. These funds were used toward the completion of six (6) new homeownership units. Seven (7) additional new homeownership units are currently under construction and will be completed in 2023-2024. The Consortium also assisted seven (7) qualifying income-eligible households through tenant based rental assistance during the program year. The Consortium was within the 10% administration cap requirement at 2.94% for the program year.

In 2022-2023, Horry County spent \$918,815.61 in CDBG funding, along with \$150,991.00 in USDA funding, on housing rehabilitation. The County completed twenty-five (25) housing rehabilitation projects during the program year. Ten (10) more are currently underway across the entitlement. Of the twenty-five (25) completed rehabilitations, six (6) projects included the completion of essential repairs to the units, e.g., plumbing, roofing, electrical systems. Essential repair projects typically range from \$15,000-\$25,000.

Horry County has maintained progress toward key objectives for housing rehabilitation. A projection of 105 rehabilitated units was proposed for the five (5) year period of the Consolidated Plan. During the 2022-2023 program year, Horry County completed twenty-five (25) homeowner rehabilitation units. With the addition of the six (6) units currently in progress, Horry County totaled thirty-one (31) rehab units, which is on pace with the Consolidated Plan goal for owner-occupied rehabilitation.

Several homeowner occupied rehabilitations resulted in drastic life changing improvements in a low income household. Of note, the following repairs demonstrate the vital nature of housing rehabilitation:

Punk Road – Little River

The assisted homeowners were a non-elderly married couple. The unit was deteriorated and in need of repairs to the electrical system, roof, windows, and rotten porch. CDBG funds were utilized to install new replacement roof that is free of leaks. Additionally, the previous windows were replaced with double-pane energy-efficient vinyl windows. Handrails were installed to ensure ease of access to the unit for the elderly occupant. Additionally, the rotten back porch was replaced with a new safe entryway. The home's electrical panel was also replaced to ensure that the unit is safe. Finally, the exterior of the home was painted. The repairs resulted in a safe living environment for the assisted homeowners.

Red Bluff Road – Loris

The assisted homeowners consisted of an elderly woman and her daughter. The unit was in a state of severe deterioration. CDBG funds were utilized to install new replacement roof that will not leak. Additionally, windows were upgraded from single-pane wood frame to double-pane energy-efficient vinyl windows. The unit also received a full kitchen renovation and replacement of a dilapidated deck. The home also had broken air conditioner, which was replaced with a new energy efficient HVAC system. Finally, the home had a malfunctioning septic system with standing sewage in the yard, which was abandoned and replaced with a new municipal sewage connection. The repairs resulted in a safe living environment for the assisted homeowners.

Discuss how these outcomes will impact future annual action plans.

Over 2022-2023, Horry County HOME Consortium increased the prevalence of new affordable units through the construction of six (6) units for homeownership throughout the Consortium service area. Seven (7) additional homeownership new construction units are currently under construction through subrecipient agreements with Habitat for Humanity of Georgetown County and Habitat for Humanity of Horry County. These units are expected to be completed in the 2022-2023 Program Year.

Additionally, Horry County was able to prevent the loss of twenty-five (25) affordable units in the current housing stock through rehabilitation activities. This strategy has been effective in the past in assisting low income households maintain their residences. However, the need for assistance greatly exceeds the resources available for homeowner rehabilitation. In fact, over 60 applicants are currently on the Horry County Community Development homeowner rehabilitation waiting list. In order to address this growing need and to maximize the amount of resources available to assist households, Horry County leveraged CDBG with USDA Housing Preservation Grant (HPG) funds in rural areas of Horry County. This partnership has allowed for additional beneficiaries to receive assistance that may not have otherwise been served during the program year. Additionally, Horry County will be submitting an application for the 2023 USDA HPG funding round to continue this leveraging partnership.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	8	0
Low-income	8	0
Moderate-income	9	6
Total	25	6

Table 13 – Number of Households Served

Narrative Information

Horry County remains committed to its Affordable Housing initiatives. Over the next program year, it will partner with Eastern Carolina Homelessness Organization (ECHO) as its ESG subrecipient to offer affordable rental opportunities to extremely low-income residents and those at-risk of homelessness.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Horry County is a member organization of the regional Continuum of Care (CoC), which is administered by the Eastern Carolina Homelessness Organization (ECHO). ECHO currently serves as a subrecipient of ESG funds for Horry County. Over 2022-2023, ECHO provided ESG-funded services to a total of 128 homeless and at risk of homelessness individuals. ESG funding for the program year was directed toward homelessness prevention activities, rapid rehousing, emergency shelter, and HMIS administration. In all, 28 beneficiaries were served through homelessness prevention activities, 63 beneficiaries were served through rapid rehousing, and 37 people were served through emergency shelter activities. Two case managers also provide outreach at community events, Continuum of Care meetings, and to landlords to locate and assist homeless and at risk of homelessness individuals. ECHO staff are trained in intake assessment skills and proper recording in the CoC's Coordinated Entry System. ECHO staff work to assist the needs of clients and provide referrals to other service providers as appropriate.

Addressing the emergency shelter and transitional housing needs of homeless persons

Horry County currently partners with ECHO as a subrecipient of ESG funding. ECHO directed \$48,176.43 in ESG funding toward rapid rehousing of homeless individuals. Horry County participates in the regional Continuum of Care, working with local public service agencies to implement a coordinated strategy to serve the needs of homeless individuals.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

Horry County Community Development partners with New Directions of Horry County and SOS Care to address the needs of the homeless and individuals with Autism and other developmental disabilities. New Directions of Horry County utilized CDBG funds to provide homeless case management services at its walk-in center (\$21,321.08). SOS Care utilized CDBG funding to conduct a program to provide housing case management services for individuals with Autism and other developmental disabilities (\$41,776.58). Participants received housing case management to help secure housing opportunities. The program assisted a total of thirteen (13) participants during the program year.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

ECHO's 2022-2023 ESG data indicate that 56.3% of its 2022-2023 ESG-served clients have left its delivery system. As mentioned earlier in this report, the remaining tend to be elderly, ill/disabled individuals or struggling veterans who rely on benefits such as social security or social security disability for income. These clients require more supportive services, and while they remain in the system longer, they are just as likely as those who have left in 2022-2023 to secure rental housing without subsidy. Horry County and the CoC remain committed to analyzing homelessness data, services and outcomes in order to continue to improve service delivery and shorten individuals' and households' length of stay in the homeless delivery system.

Key to the CoC's success are its partnerships with providers of critical services that target the needs of area homeless. In Horry County, these services include mental health and health care, veterans and senior services, services for the disabled, and case management.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The Horry County HOME Consortium works with four (4) Public Housing Authorities within its jurisdiction: The Housing Authority of Myrtle Beach (HAMB), the Conway Housing Authority (CHA), the Georgetown Housing Authority (GHA), and the Kingstree Housing Authority (KHA). Each housing authority administers the Section 8 Rental Assistance Program, which provides subsidies for privately owned housing for eligible applicants in the Housing Authority's Service Area. Tenants are required to pay 30% of their income toward the rent and the housing authority subsidizes the difference up to the Fair Market Rent, which is established by HUD annually. Eligibility is primarily based on income and is established by HUD and adjusted each year.

Additionally, HAMB offers a Housing Choice Voucher Homeownership Program to housing voucher participants who have been receiving assistance for at least one year and who are currently enrolled in the authority's Family Self-Sufficiency Program (FSS). Program participants not enrolled in the FSS Program who wish to participate in the Homeownership Program must enroll in the FSS before they are eligible to receive a homeownership voucher if they are approved for a mortgage. Additionally, HAMB administers vouchers for eligible veterans through the Veterans Affairs Supportive Housing (VASH) program. CDBG and HOME funds are not eligible to be used to improve public housing units.

Horry County and its sub-grantees work with local housing authorities to develop plans for affordable housing units, and to encourage other public and private entities to invest in affordable housing.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

Public housing residents are encouraged to provide input to their respective PHAs and are also invited to participate in the citizen participation process carried out by the Consortium. The Consortium encourages Public Housing residents to learn about their Fair Housing rights and provides Fair Housing materials to interested individuals. All of Consortium's public housing authorities solicit resident input during the creation of their annual plans and other long-range planning documents.

Actions taken to provide assistance to troubled PHAs

There are no troubled housing authorities in the Horry County HOME Consortium service area.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

Horry County Community Development works closely with the County's Planning & Zoning and Code Enforcement Departments to ensure that low-to-moderate income residents have an opportunity to participate in the development of local priorities. Through collaboration with housing officials, developers, agencies, and housing non-profits including Community Housing Development Organizations (CHDOs), the County continues to develop mechanisms to identify and eliminate barriers to affordable housing.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

Many households experiencing poverty are able to remain in their homes, but live in unsafe or decrepit conditions after years of deferred maintenance on their homes. The potential loss of longstanding homeowners jeopardizes neighborhood stabilization efforts and places homeowners at risk of becoming homeless. Over the last program year, the County continued a program recently implemented through changes to the Housing Rehabilitation program to meet the growing variety of rehabilitation needs throughout the County. This program consists of a mobile home repair and replacement program to serve a previously underserved population. Prior to the initiation of the program, mobile home assistance was limited to repairs on units less than 25 years old. The implementation of this program allowed for an evaluation of repair feasibility, and a subsequent determination to repair or replace the unit. Additionally, Horry County added a USDA rehabilitation grant to its funding portfolio, which allowed for additional housing repair needs to be addressed. The USDA funding was leveraged with CDBG, when possible, to assist eighteen (18) low-income households in rural areas of Horry County, allowing additional rehabilitation activities to be conducted.

Community Development's partnership with the Housing Authorities, and the CoC, has provided opportunities to identify and overcome barriers. For example, the County partners with ECHO to identify and address barriers to homelessness prevention and rapid re-housing, as part of the ESG program.

Recognizing the fundamental need for economic development in the community to serve residents' needs for employment and living wages, Horry County partners with the Myrtle Beach Regional Economic Development Corporation (MBREDC) as a key resource for development programs. The MBREDC has assisted in the creation of over 1,910 jobs since 2012 and \$1.7 billion in capital investments in the area since 2006.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

To address lead-based paint hazards, Horry County Community Development ensures that all pre-1978 housing units undergoing rehabilitation, and any public facilities undergoing renovation, have a lead inspection/risk assessment before any physical work begins on the unit. If lead is present and a danger to the occupant, the presence of lead in the unit is mitigated.

Information about lead-based paint is distributed to all participants of housing rehabilitation programs across the entitlement. Horry County Community Development performs lead inspections for all housing units assisted with CDBG funds with a pre-1978 construction date. During the 2021-2022 program year, one (1) unit was identified to contain lead-based paint hazards and was remediated as a component of the owner-occupied housing rehabilitation program. The County also continues to support programs available through the SC Department of Health and Environmental Control (DHEC) to address the presence of lead in housing.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The County's anti-poverty strategy is the unifying thread that combines housing and infrastructure development, homelessness prevention and reduction efforts, and public service delivery strategies into a comprehensive plan for the reduction of poverty. The key principles of Horry County's anti-poverty strategy are evident throughout the Consolidated Plan in its prioritization of housing, homelessness prevention and reduction, and infrastructure development in key target/revitalization areas.

The County has targeted CDBG, HOME, and other resources toward the low-income target areas described in the Consolidated Plan. These resources act as a catalyst to cultivate additional public and private investment of capital and services within targeted areas. The County actively seeks compatible funding opportunities to augment project funding when feasible. A past example of this strategy includes the use of Rural Infrastructure Authority (RIA) funding, coupled with CDBG entitlement funds, for the construction of drainage improvements in the Racepath Community.

This approach also invites a plethora of activities and programs into target areas. Public services are provided in conjunction with target area service providers. The County works over time with residents and providers to develop the capacity of non-profit organizations to provide services. The redevelopment of infrastructure and the construction of new affordable housing units, the rehabilitation of existing housing stock, and the homelessness assistance programs that provide support for area shelters and supportive services are key elements of the County's strategy in these target/revitalization areas as well.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

Fundamental to the County's institutional structure for Community Development activities is the intergovernmental agreement among Horry County, the City of Myrtle Beach and the City of Conway, executed on October 1, 2008 in order to establish the entitlement. The agreement allows each jurisdiction

to maximize the amount of CDBG funding received and to proportionately allocate benefits from the funding allocation countywide. Under this agreement, Horry County assumed responsibility for program administration, monitoring, compliance, and evaluation of all CDBG programs as the lead agency. Horry County's percentage of the annual CDBG allocation was set at 54%; Myrtle Beach's percentage of the allocation was 29%; and the City of Conway's allocation was 17%. Both Myrtle Beach and Conway are considered sub-grantees. The entities meet on a regular basis to benchmark progress. In May 2019, the City of Conway declined to renew the CDBG intergovernmental agreement for the upcoming three year period. Horry County has continued to administer agreements established with the City of Conway under previous funding years. Under the new intergovernmental agreement, Horry County's percentage of the allocation is 75% while the City of Myrtle Beach's allocation is 25%.

The County also coordinates and leverages its efforts with other local, state, and federal institutions to address specific needs or to implement new programs. The County understands the importance of integration and cooperation among housing providers, community development and social service agencies, and private entities, in order to fill the gaps in its delivery system. Through active engagement with partners, the County works to ensure efficiencies in delivery of programs and services, and to avoid duplication of efforts.

One of the strengths of the current delivery system is the existing collaborative network of providers. The structure requires strong participation by local organizations and stakeholders. Horry County Community Development focuses on a data-driven approach, and evaluates feedback and ideas from multiple sources, customers and stakeholders, in order to identify needs and develop solutions.

The Horry County HOME Consortium will continue to work with local non-profits and housing organizations to facilitate the development and retention of affordable housing units. Staff participated in ongoing URA compliance training, as well as other available opportunities to increase organizational capacity. Staff continues to participate in HUD-provided trainings for HOME and other funding sources when possible.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Horry County targets significant CDBG, HOME, and other resources within the low-income areas described in the Consolidated Plan. These resources spur additional public and private investment of capital and services, in order to increase the quantity and quality of affordable housing and infrastructure and to help low-to-moderate income residents in the areas to acquire needed services. The County continues to support local housing organizations, such as Habitat for Humanity, Grand Strand Housing and Community Development Corporation, and His Hands of Horry County, in providing affordable housing opportunities and housing rehabilitation. CDBG funding for housing rehabilitation projects totaled \$912,052.76 for this program year. Community Development also continues to work with local lenders to identify changes or patterns in lending practices, especially those that impact low-income residents, minorities, Section 3 residents, and special populations, and their ability to become homeowners.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

Horry County received approval of its plan for Affirmatively Furthering Fair Housing in November 2017, which replaced the prior Analysis of Impediments. The issues identified in the plan informed the goals that were identified in the 2018-2022 Consolidated Plan. A team comprised of Horry County Community Development staff, Conway and Myrtle Beach staff members, CoC staff, and representatives from the Housing Authorities of Myrtle Beach and Conway participated in the development of the plan. Horry County is one of approximately thirty jurisdictions with a HUD-approved AFFH plan in place.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Horry County's Monitoring Policies and Procedures enables staff to monitor all activities and accomplishments against goals and objectives, and to identify specific monitoring activities for each sub-recipient based on factors including general grant experience, experience with HUD funding, activity type, staffing, and more. Information gained from the reviews helps County staff to identify programs, activities, and strategies that have been successful. Best practices are then shared. When corrective actions are identified, measurable action plans are developed and tracked with subrecipients.

The monitoring and evaluation process includes:

- Initial subrecipient workshop and training. Topics include CDBG regulations and standards for the eligible activity and national objective, plus requirements for procurement, reporting, financial systems, and federal contract provisions. Staff identifies any ongoing monitoring and training needs.
- Periodic phone contacts and emails, in order to offer guidance and check on progress.
- Formal desk review at reimbursement request. (These typically occur every 30-60 days.) The review checks for allowable costs, adherence to agreement, accomplishments and beneficiaries, timeliness/rate of spending, and compliance with policies and procedures. Horry County reimburses only when the agency has complied with the requirements of the contract.
- Annual on-site monitoring session. Letters are sent in advance of these sessions, with an enclosed monitoring checklist. After the session, a formal report is delivered to the sub-recipient and filed. Any corrective action plans are developed with the subrecipients and tracked. Internal monitoring is also conducted to determine if there is a need for amendments to the policies and procedures, which are implemented as appropriate.
- As required, Davis-Bacon site visits are conducted on capital improvement projects (\$2,000 or more) to ensure adherence to regulations, and to provide for Davis-Bacon wage rates and fringes to workers. County staff ensures its attendance at all pre-bid and pre-construction meetings for projects requiring Davis-Bacon, in order to inform and train.
- As required, Section 3 compliance is ensured on all capital improvement projects (\$200,000 or more). County staff attends all pre-bid and pre-construction meetings requiring Section 3 compliance.

For housing rehabilitation activities, County staff monitors compliance at specific milestones, including: property verification, income verification, project estimation, procurement, construction (on-site inspections), reimbursement/draw, and closeout.

Horry County will include expenditure timeliness monitoring as a reviewed element with the City of Myrtle Beach for monitoring of the 2022-2023 Program Year. This review will include an analysis of the current level of spending, as well as a review of project status to determine progress toward spend down milestones. Horry County met the CDBG timeliness requirements for 2022-2023 with a ratio of 1.48. Horry County will continue to monitor its rate of expenditure and work with its partner municipality to ensure that compliance is maintained at the next test date in May 2024.

The Horry County HOME Consortium will monitor its subrecipients and CHDOs for the 2022-2023 program year as a part of its annual monitoring process. Monitoring activities for the 2022-2023 Horry County HOME Consortium program year will focus on projects currently under construction, as well as a review of progress completed by subrecipients during the previous program year.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

For the 2022-2023 CAPER, Horry County HOME Consortium will advertise a 15-day comment period (August 4th – August 18th, 2023), during which residents will be offered the opportunity to provide written comments on this CAPER. In addition, three in-person public hearings are scheduled to be held the week of August 14th, 2023 to allow citizens throughout the HOME Consortium service area an opportunity to provide verbal comments as well. All residents are invited to attend. Horry County HOME Consortium will summarize public comments at the conclusion of the comment period.

The CAPER will be presented at the Horry County Council meeting on September 5th, 2023. Horry County HOME Consortium will summarize public comments after the meeting is held.

All residents of the Horry County HOME Consortium service area are invited to attend and comment at all meetings.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

There are no changes in Horry County's program objectives and goals as a result of its experiences. While Horry County continues to monitor feedback of residents as a result of its Citizen Participation Plan, no experiences or analysis has warranted a change in programs.

Over the last program year, some new developments have supported and/or expanded current programs and approaches:

- In order to expand its ability to address the growing homeowner rehabilitation waiting list, Horry County leveraged CDBG funds with USDA Housing Preservation Grant (HPG) funding to conduct homeowner rehabilitations. Although this funding has specific eligible areas and different income restrictions than CDBG funding, Horry County was able to leverage USDA funding for components of larger rehabilitation activities. Utilization of this funding source has allowed Horry County to enhance its ability to address its waiting list of approximately 60 applicants. Horry County has submitted an application for the 2023 round of USDA HPG funding in anticipation of expanding this partnership.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 24 CFR 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in 24 CFR §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The regulation at 24 CFR 92.504(d) requires inspection of units at project completion and annually during the affordability period for rental projects. Inspections were performed for completed units by the Consortium housing inspector. All units met required construction standards for the type of activity completed. Three (3) rental units were completed in February 2022. These units were inspected on October 21, 2022 and were found to be in order. Due to the recent completion date for the units, no additional on-site inspections have been conducted at this time. Grand Strand Housing is compiling rent rolls and confirming current income information. Units are scheduled for onsite inspections in October 2023 in accordance with the requirements of affordability period compliance monitoring.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 24 CFR 91.520(e) and 24 CFR 92.351(a)

As required by HUD, Horry County HOME Consortium and its subrecipients follow the Affirmative Marketing Regulations. Printed materials designed to educate the public, owners, or potential tenants wishing to participate in the HOME Program include a statement regarding Horry County's Affirmative Marketing Plan as well as the applicable fair housing laws. All newspaper and other media announcements, as well as any printed materials, include the Equal Housing Opportunity logo, slogan, or statement. Fair Housing Posters are also displayed in the Horry County Community Development office.

Seven (7) homeownership units are currently under construction through subrecipient agreements with Habitat for Humanity of Georgetown County and Habitat for Humanity of Horry County. Both Habitat for Humanity affiliates have implemented affirmative marketing plans and comply with the applicable regulatory requirements. Habitat reaches out to those who are least likely to apply for assistance through advertisements and informational brochures available at local service organizations. All other subrecipients and CHDOs funded through HOME have implemented programmatic affirmative marketing plans as well. No current projects trigger the regulatory requirement for project-specific affirmative marketing plans. Staff will work with Habitat to ensure that all affirmative marketing requirements are fulfilled with current and future HOME-funded units.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

No program income was received during the 2022-2023 Program Year.

Describe other actions taken to foster and maintain affordable housing. 24 CFR 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 24 CFR 91.320(j)

During the 2022-2023 Program Year, Horry County HOME Consortium staff explored opportunities to expand its ability to foster and maintain affordable housing. The County continues to place great emphasis on training and expansion of capacity in environmental requirements. Staff participated in ongoing URA compliance training in order to increase organizational capacity. Consortium staff will continue to provide technical assistance in the upcoming program year to develop construction-ready projects for HOME funding. In September 2022, Staff coordinated with the Center for Heirs Property Preservation to conduct an information session on issues associated with heirs property. Additional heirs property educational sessions and workshops are currently being planned for the 2023-2024 program year and will be held in the near future.

Table 15 – Qualitative Efforts - Number of Activities by Program

Narrative

Horry County, as a recipient of HUD funding, makes significant efforts to comply with the Section 3 regulation. Horry County incorporates Section 3 compliance language into all of its subrecipient agreements. In the 2022-2023 program year, Horry County funded a vocational skills development program in partnership with Horry Georgetown Technical College through the use of American Rescue Plan funding. The program provides targeted educational opportunities for low income citizens with an emphasis on serving several local LMI areas. Additionally, Horry County is utilizing CDBG-CV funding to assist small and disadvantaged business enterprises with business development classes. Horry County also coordinated with the Housing Authority of Myrtle Beach to update its listing of Section 3 residents seeking employment. This list was made available to bidders submitting bids for Section 3 applicable projects. Of note, Horry County seeks to include Section 3 businesses in its rehabilitation and infrastructure projects. Horry County uses an Invitation for Bids system to procure contractors for its construction projects. Bid advertisements are placed on South Carolina Business Opportunities (SCBO) and Construction Journal to maximize exposure to potential Section 3 contractors. Although no Section 3 contractors were identified and selected during the 2022-2023 Program Year, Horry County continues to encourage Section 3 businesses to bid on projects. No Section 3 businesses are currently registered within HUD's search utility within Horry County, Georgetown County, or Williamsburg County, which presents a barrier to identification of potential contractors.
