Flood Flaps Engineered Flood Vents

Providing Unmatched Value & Superior Performance

85112
1-11-2019
TLM/LEV/22

Flood Vents protect houses and buildings in floodplains by preventing hydrostatic pressure buildup that can destroy walls and foundations. Flood Flaps® flood vents are building code, FEMA and NFIP compliant. Our products have been evaluated by the ICC-ES (ESR-3560) and are Florida product (FL 17381) approved. Each flood vent covers 220 square feet of enclosed area, no matter the model or depth. Our rust resistant engineered ABS plastic is durable and does not require annual preventative maintenance to meet the 5 year warranty. Flood Flaps® flood vents are also proven to help home owners lower their annual flood insurance premium. UNMATCHED VALUE and SUPERIOR PERFORMANCE...

Sealed Series Flood Vents "Superior Performance"

2015 International Energy Conservation Code

Flood Flaps® Sealed Series model flood vents prevent air from passing through the flood opening 365 days a year. These flood vents use two rubber flaps to seal out exterior air, moisture, dust and insects, thus making these models very energy friendly and efficient. Because the rubber flaps swing from the top, they will disengage from water pressure in flood situations to allow flood waters to flow in either direction. In non-flood situations, an encapsulated garage, conditioned lower level or garage located within a floodplain will remain controlled and energy efficient. Visit www.floodflaps.com for an Air Leakage video to see how well these flood vents perform.

Multi-Purpose Series Flood Vents "Unmatched Value"

Flood Flaps® Multi-Purpose Series vents are certified to provide flood protection and air ventilation. These models are perfectly designed for an enclosure or crawlspace in a floodplain that desires natural air while still providing efficient flood relief when necessary. The grill remains closed and secure to prevent rodent or pest intrusion, until forced open by flood waters, allowing water to enter or exit unobscured through the flood vent.. These automatic foundation flood vents are also FEMA/NFIP compliant and each cover 220 sq. feet. No other ICC-ES evaluated flood vent provides 220 sq. feet of coverage for the price. UNMATCHED VALUE.

Safety Caps For Chimneys

85112
1-11-2019
Dr. Levi 22

Safety Caps for chimneys provide protection against dangerous sparks while reducing downdrafts, clogging, soot, and creosote build-up. They also protect against animal and bird infestation, and deflect other debris and rain from entering the chimney. All Master Flow® Safety Caps feature:

- **Superior Design...** Single piece, heavy gauge hood for longer life and less chance for leaks
- **Long-Lasting Construction...** No rivets or seams to rust or corrode
- **Great Looks...** Epoxy powder finish provides long lasting protection (note: stainless steel safety cap is unpainted)
- **Quick, Easy Installation...** Using only a screwdriver
- **Appropriate Code Approval...** Meets most fire codes

STAINLESS STEEL SAFETY CAPS

- 100% stainless steel construction
- Recommended for coastal areas and for coal & oil burning furnaces
- 4 year ltd. warranty

Model No.	Fits Flue Tile Outer Dimensions
CC1313SS	11½" x 11½" - 13½" x 13½"

Foundation Vents

POWER

- Removes damaging moisture - helps prevent structural decay and mold growth
- Fits in traditional foundation vent openings, with simple plug and go operation
- Up to 330 CFM/airflow to eliminate moisture during peak times
- Tested and approved by independent laboratories

BLOCK STYLE

- Aluminum vanes; lintel not required
- For block, brick or frame construction
- Recommended for high level ventilation

BVSII

AUTOMATIC

- Automatically opens at 70°F, closes at 40°F
- Helps prevent foundation decay
- Lowers risk of frozen pipes
- Replaces manual vent
- Snap-in installation
- Saves energy

FVRABL

GRILL STYLE

- Designed for nailing to floor joists or as a foundation block replacement

LW1/LW1L

GRATE STYLE

- Positive open/close damper action
- Lintel for foundation block construction
- Lowers risk of frozen pipes
- Saves energy
- Helps prevent foundation decay
