**Explanation of proposed amendments to Ordinance 141-05 relating to mining activities that will be considered for Third Reading on February 7, 2006.** Ms. Carter explained the proposed amendments included three options for changing Ordinance 141-05. Options included allowing mining as a conditional use in FA and CFA zoning classifications rather than requiring a PDD. Another option was to create a mining permit process wherein an application, along with a road plan, would be submitted to the County Engineer and an onsite meeting held to review the road maintenance and traffic plans. The permit request would be forwarded to Council for approval via a Resolution after a public hearing. The third option was to request the Planning Commission to consider establishing a floating zone for properties that were not zoned FA or CFA where standards would be provided for a rezoning process. She stated the proposed amendments would be discussed, and a public hearing held, at the I&R Committee meeting on February 2.

Second reading and public review of **Ordinance 02-06** to amend the county code to adopt procedures for the issuance of a mining permit upon approval by County Council resolution after public hearing. **Mr. Hardee moved to approve, seconded by Mr. Boyd.** Ms. Amelia Wood spoke regarding criteria for approval and suggested amending the ordinance to add a community impact statement. Mr. Lazarus seconded the motion for a \$250 fee.** Mr. Tom Garigen spoke briefly on Stormwater and water quality testing. Chairman Gilland proposed creating an ordinance that would place an annual fee on current and future mines, and use the money to fund a position to check county mines and any other dirt operations that could be potentially harmful to water. She requested that the I&R Committee discuss the issue. Mr. Barnard stated Carson and Lawton Benton had been helpful and he had asked them to come to the meeting and requested that they comment on the ordinance. Carson Benton spoke about working together to resolve the issue and he thought the ordinance was fair. Mr. Barnard requested that Carson and Lawton Benton attend the I&R Committee on February 2<sup>nd</sup> to participate in public input. **Mr. Lazarus called the question. Third reading and public review of **Ordinance 199-05** to approve the request of Signature Golf, World Tour PDD, to amend the official zoning maps. **Mr. Prince moved to approve, seconded by Mr. Worley.** Mr. Weaver stated that due to a time limit for financial purposes the developer proposed a draft agreement to include the property in a County Public Works Improvement Act District and to impose an annual residential unit assessment of \$200 per unit for 30 years. The assessment would be used for widening River Oaks Boulevard to four lanes. The developer requested the draft agreement be made part of the PDD Special Revisions as Paragraph 5. **Mr. Foxworth moved to amend the PDD to incorporate the draft agreement as Paragraph 5, seconded by Mr. Prince.** The amendment text was as follows:

“The developer of World Tour PDD hereby agrees that as a condition to approval of the rezoning for the subject tract, he will include the subject property, either alone, or in concert with additional properties, in a County Public Works Improvement Act Section 4-35-10. The subject tract shall be subject to an annual equivalent residential unit assessment of \$200 per unit, to be assessed over a period of thirty (30) years. Subject to the limitations of the applicable chapter of the South Carolina Code of Laws, the developer will encumber the subject tract with an obligation to impose such assessments upon each of the units to be developed thereon, which are to be collected by Horry County, as a portion of the annual property tax assessed against each unit. The bond will be secured solely by the real property encompassing the subject tract, and will specifically exclude any general obligation on the part of Horry County. The bond principal, which the developer hereby agrees to assign to Horry County, is estimated to be approximately \$1.7 million. Horry County agrees that such

bond proceeds will be utilized to pay for a portion of the proposed improvements to River Oaks Boulevard, the actual application of which shall be made at the discretion of the Horry County Department of Public Works. This agreement stems from the goal of Horry County to improve River Oaks Boulevard to a four lane roadway. The developer recognizes that these improvements are in the best interest of his project and to those who will live there.

Horry County agrees to utilize this or other methods, subject to the equivalent residential unit assessment specified above, to raise sufficient funding to improve the entire length of the roadway with the cooperation of the developers of tracts in the area which are not yet developed.”
