AWARDS

Distinguished Budget Presentation Award

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award for Distinguished Budget Presentation to Horry County for its annual budget for the fiscal year beginning July 1, 2013. This is our twenty-fifth (25th) consecutive Fiscal Year (1990 through 2014) receiving this award.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Certificate of Achievement for Excellence in Financial Reporting

Horry County Finance Department has received this award for the twenty-seventh (27th) consecutive Fiscal Year (1987 through 2013) from the Government Finance Officers Association of the United States and Canada for the Comprehensive Annual Financial Report for achieving the highest standards in government accounting and financial reporting.

Honorable Chairman and County Council
County of Horry
State of South Carolina

Dear Chairman and Council Members:

I respectfully present the Fiscal Year 2015 Financial Plan for Horry County, South Carolina in the amount of \$377,484,342, as approved by County Council on June 17, 2014. This document includes the spending guidelines approved by County Council for all operating departments of the county. Furthermore, it contains supplementary information designed to provide the citizens of Horry County with a better understanding of the budget and where funds are to be spent this year. Prior to the adoption of this budget, County Council's deliberation involved numerous meetings, including the spring budget retreat; televised meetings of County Council Committees relating to Administration, Infrastructure & Regulation, and Public Safety; Airport Advisory Committee meetings; Solid Waste Board of Directors meetings; and two regular televised council meetings, including a public hearing for public input at second reading of the budget ordinance. All of these meetings were advertised in advance.

In November, the County Council and staff met at a Fall Planning Retreat to establish the priorities for the FY 2015 budget. Additionally, County Council was briefed on the anticipated revenue and expense for the upcoming year. Specifically, County Council was advised of the increased budget needs associated with new capital projects and the increased cost of employee benefits. County Council was also briefed on the financial results for FY 2013 and the first quarter of FY 2014.

At the Fall Planning Retreat, staff was directed to incorporate an increase in employee compensation. Other guidance related to our five year capital improvement program plan to address the county's needs, and to begin the planning process for a RIDE III Capital Project Sales Tax program.

As the Administrator's requested budget for FY 2015 was prepared, staff anticipated no increase in tax revenue due to the implementation of the five (5) year property tax reassessment required by State law. Staff did anticipate an increase in documentary stamp revenue from the

Register of Deeds department and Business License revenue based on the trends seen in the FY 2013 and FY 2014.

As discussions were held, Council ultimately voted for a FY 2015 budget that kept county-wide millage rates at the same rate as FY 2014, even though the reassessment process showed a slight decrease in assessed property value. The county will manage any decline in revenue it may experience.

The FY2015 budget includes forty-seven (47) part-time positions, twenty-two (22) full-time positions and deletes five (5) positions resulting in a net growth of sixty-four (64) positions:

<u>Department</u>	<u>Additions</u>	<u>Deletions</u>	<u>Net Increase</u>
<u>Administrative Division</u>			
Legal	-	1	(1)
Information Technology	1	-	1
Probate Court	1	-	1
Airport FBO- General Aviation	<u>-</u>	<u>1</u>	<u>(1)</u>
Total Administrative	2	2	-
<u>Public Safety Division</u>			
Clerk of Court	1	1	-
Sheriff	2	-	2
Magistrate At Large	-	1	(1)
Detention	13	-	13
Animal Care Center (5 PT)	7	-	7
Beach Cleanup	2	1	1
Fire Fund (PT)	<u>30</u>	<u>-</u>	<u>30</u>
Total Public Safety	55	3	52

<u>Department</u>	<u>Additions</u>	<u>Deletions</u>	<u>Net Increase</u>
<u>Infrastructure & Regulation Division</u>			
Public Works (PT)	7	-	7
Recreation (PT)	<u>5</u>	<u>-</u>	<u>5</u>
Total Infrastructure & Regulation	12	-	12
Total County	69	5	64

The new initiatives driving the increased positions include the introduction of a new litter control program, compliance with new inmate security requirements, and introducing additional positions to lessen the overtime burden and cost for the Fire Department.

The FY 2015 budget presented to County Council included a 2% cost of living adjustment for employees. Additionally, the County budget covered increased costs for employee retirement contributions and health insurance premiums .

The FY 2015 Budget meets the current fiscal needs of county government operations and provides limited funding for future capital investment as well as adequate funding for the repayment of the county's debt.

The budget utilizes \$7.8 million from fund balance within the General Fund. Of this fund balance, \$2.4 million is used to continue the capital improvement program. Another \$2.8 million was allocated to other smaller capital purchases and other one-time uses. As with the FY 2014 budget, the county is again using fund balance to fund operations.

The FY 2015 budget addresses the funding for the first year of the county's Five Year Capital Improvements Program. Additionally, the full five year Capital Improvements Program plan is included in the budget document under the 5 Year CIP tab.

The FY 2015 capital budget includes the lease purchase payments for the county-owned fiber loop between North Myrtle Beach and Myrtle Beach, which connects various county buildings to the cities as a part of the county's information technology infrastructure and continues to be funded from the solid waste fee. In addition, Project 25 (P25) infrastructure improvements and equipment, and the lease/purchase of P25 compatible radios are included. The P25 project is the standard for design and manufacture of two-way wireless communications products for public safety communications. Having a P25 compatible infrastructure and equipment will allow interoperability with other counties, agencies, and states. The budget also includes the ongoing commitment to a new Financial System and an Aerial photography flyover.

The county's commitment to recreation is continued by the designation of the revenue from Sunday liquor sales licenses and permits for additional recreation improvements at various parks. The final determination of how this funding will be distributed will be determined once it has been received.

The FY 2015 budget, as approved by County Council, continues their dedication to provide improved infrastructure and facilities for the citizens and visitors of Horry County.

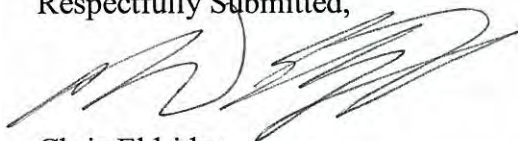

This budget as adopted includes the following:

- ◆ Continuation of the Local Road Improvement Program.
- ◆ Continuation of the Stormwater Management Program funded by stormwater fees assessed on all real property in the unincorporated areas of the county.
- ◆ Continuation of the Recreation Program with 1.7 mills dedicated to recreation.
- ◆ Continuation of the Geographic Information System (GIS) and the county's investment in Information Technology (IT).
- ◆ Continuation of the multi-year improvement plan for Public Safety technology and the entire communication system.

In summary, the Fiscal Year 2015 Financial Plan for Horry County represents County Council's plan for providing service needs for the current year. The continuation of the Capital Improvements Program demonstrates County Council's commitment to provide adequate and available facilities for the delivery of services both now and in the future.

With the final adoption of this budget, I wish to thank the Chairman and each County Council member for their input and deliberation throughout the process. The adoption of a budget is seldom easy or without sacrifice. This budget will provide basic services to the residents and visitors of Horry County. I would like to recognize the staff of the budget team, the assistant administrators, department managers, as well as the elected and appointed officials and all county employees, for their willingness to work together to make this budget possible.

Respectfully Submitted,

Chris Eldridge
County Administrator

COMMUNITY PROFILE

THE COUNTY OF HORRY

Horry County, South Carolina is located on the east coast of the United States, is bounded on the north by the North Carolina state line and is approximately 100 miles north of Charleston, South Carolina, and approximately 150 miles east of the State Capital, Columbia, South Carolina. It encompasses 1,134 square miles of area.

The county was incorporated in 1801 with an estimated population of 550. Since the county was almost completely surrounded by water and its inhabitants were forced to survive virtually without any assistance from the "outside world", they became an extremely independent populace and named their county "The Independent Republic of Horry". The county was named after Peter Horry who was a descendent of Huguenot settlers and whose family owned several large plantations in the area. He served as Brigadier General of Militia and a member of the South Carolina General Assembly during the American Revolution under General Francis Marion, who was called the Swamp Fox.

In the 213 years since its incorporation, Horry County has grown from a rural hamlet into one of the most dynamic counties in South Carolina. According to the 2013 Census estimate, the population has grown to 289,650 and accounts for about six percent of the states population.

COUNTY GOVERNMENT

Horry County has operated under the Council-Administrator form of government since 1976. Under this type of government, each member of Council is elected from the district in which he lives and a chairman is elected at-large. The Vice-chairman is elected among the membership of Council. The Council consists of a Chairman and eleven (11) Council Members, each elected for four-year terms. The Council appoints a Clerk to Council, Register of Deeds Director and an Administrator. Elections are held in November of each even-numbered year, with six Council members and the Chairman being elected and the other five members being elected two years later. All of the County Council members serve the county on a part-time basis.

The Council is responsible for the legislative and policy functions of the government. The Administrator is appointed, subject to confirmation by a majority of the Council Members, to perform all necessary administrative duties, as directed by the Council, and to ensure the efficient operation of all county functions.

POPULATION

The 2010 U. S. Census placed Horry County's population at 269,291. From the time of the previous U. S. Census in 2000, the county's population has increased by 72,662 residents, or 37 percent. The Census Bureau projects that Horry County's population will be 371,700 by the year 2030.

<u>Year</u>	<u>Popul.</u>	<u>Year</u>	<u>Popul.</u>	<u>Year</u>	<u>Popul.</u>	<u>Year</u>	<u>Popul.</u>

According to the 2010 U.S. Census, approximately 17 percent of the population is 65 years or older. The largest population group is over 40-64 years of age. This age group accounts for 34 percent of the county's entire population. The 2010 U.S. Census also shows that the largest race served by the county is White at 79.9 percent with the next largest being Black or African American at 13.4 percent.

Around the County

ECONOMY

Development of the county's predominantly tourist-based economy continues to expand. Most of the county's sixty (60) miles of beaches stretching from Little River to Pawleys Island have been developed residentially or commercially.

Where to Retire magazine rated the Myrtle Beach area as one of the top “15 Low-Cost Towns” in the United States. The magazine cites the Myrtle Beach area for its low cost of living and calls it one of the best beach towns in the nation. Persons 65 years old and older make up 17 percent of the total population for Horry County. Horry County is No. 1 among the top five regions in South Carolina where retirees are relocating.

Horry County was the third-fastest-growing county in South Carolina between 2000 and 2010. According to the U.S. Census Bureau, the population grew by 72,662 residents, or 37 percent, during that period to 269,291 people in 2010 from 196,629 in 2000.

Source: Myrtle Beach Area Chamber of Commerce – Statistical Abstract (23rd Edition) and U.S. Census Bureau

The largest planned development in Horry County, Carolina Forest, was opened by International Paper. Carolina Forest Development Agreement area covers approximately 17 square miles or 10,850 acres. The Carolina Forest area however encompasses an area much larger than the boundaries of the Development Agreement. The area has become a center for surrounding developments to live and shop. There are currently 26 major residential subdivisions within the Carolina Forest area. The population increased 420 percent between 2000 and 2010 and now totals nearly 18,000 as of the last population projection. Commercial has continued to expand since 2010 census numbers became available. Now with the extension of International Drive the Towne Center area will begin to develop into a regional shopping destination. Currently there is approximately over 150,000 square feet of commercial under construction within the Carolina Forest Area with over 300,000 additional planned over the next decade. To compare, the City of Myrtle Beach is also approximately 17 square miles or 10,700 acres. In 30 years, 50,000 to 60,000 people, twice the population of the City of Myrtle Beach, could live in Carolina Forest. The population of the Carolina Forest area will continue to expand, as will commercial activity, moving forward.

Another area of unincorporated Horry experiencing tremendous growth over the past 15 years is the Burgess community. Unlike Carolina Forest, Burgess has grown without a Development Agreement. Burgess is located on the southern boundary between Horry and Georgetown counties. The community is approximately 28 square miles in area and is flanked on the west by the Waccamaw River and the east by US Highway 17 Bypass. The northern boundary is an amalgamation of properties with no clear delineation, separate from neighboring Socastee, another area of growth in the county. Burgess has transitioned from a rural community to a predominantly suburban community during the last 20 years, with a population increase of 633 percent from 1990 to 2010. As of the 2010 Census, the Burgess community has 24,923 residents. Since 1990, the majority of development has been residential in nature, and during the last 15 years this development has exploded, although parts of the community still retain some of the rural characteristics that preceded the rapid growth. The community has significant transportation infrastructure currently and planned. SC 707 bisects the community; a two lane highway that is currently undergoing a major widening to 4-lanes with a center turn lane. SC 31 is being extended from its current terminus at SC 544 and will terminate at SC 707 with a major interchange. Construction on both of these projects has begun.

Older, more established communities in unincorporated Horry include Socastee, Garden City, and Little River, although the population growth in these areas has not matched that of Burgess and Carolina Forest. Nonetheless, these communities, although well established, are experiencing “infill” development. While population growth will be limited, the demand and need for services in these areas will continue to grow. Maintenance of existing infrastructure and planned improvements to meet regional infrastructure demand will have an impact on these communities.

There is a huge demand for municipal services in such a densely populated area. Parks and recreation, libraries, police and fire services, are in high demand with existing facilities at or near capacity. Transportation infrastructure continues to expand, the School District continues to build and upgrade facilities, and gas, water and electric utilities are growing daily to meet the needs of citizens and visitors. Projected growth and development, coupled with the existing levels of service the people of Horry enjoy, means the county must analyze funding methods such as impact fees, admissions taxes, property taxes, business licenses, etc. to ensure its ability to provide services into the future.

Due to the amount of growth in Horry County, construction, both residential and commercial, has boomed over the past several years. From FY 2005 to FY 2006 Horry County received the largest increase in building permit revenue since we started permitting construction in the mid 1970s. From FY 2004 to FY 2006 permit revenue increased from \$4.5 million to a peak of \$9.2 million. After the peak in 2006, permit revenue returned to the 2004 level by the end of FY 2008. Construction is on the rise from the last couple of years. In the FY 2014 permit revenue increased 6.7 percent to \$3.1 million from FY 2013 at \$2.9 million. New Single Family Residential structure permits increased 8 percent in FY 2014 (SFRs 1,889) from FY 2013 (SFRs 1,756). The construction value has increased 11 percent from FY 2013 (\$371 million) to FY 2014 (\$404 million).

Horry County's condominium construction and sales experienced a similar increase for FY 2004 to FY 2006. However, the decline in the condo market has been worse than the single-family residential or commercial construction and continues to show no improvement through FY 2014.

Tourism continues to be the most important industry on the Grand Strand. Myrtle Beach is considered one of the nation's top vacation destinations and hosts an estimated 14 million visitors annually. Myrtle Beach has been named one of the nation's Top 10 vacation spots by the Travel Channel, and one of the Top 25 Destinations in the United States by TripAdvisor. The beach, golf, shopping, and entertainment theaters are all major attractions for the region. Group market sales are also an increasing part of the visitor industry for the Grand Strand. The region now has more than 1,700 full service restaurants, more than 98,573 rooms available for overnight guests, nine entertainment theaters and 102 golf courses – not to mention miles of beachfront.

The Myrtle Beach area of South Carolina proves that it is worthy of the moniker "The Grand Strand" year after year by garnering prestigious awards and designations ranging from "America's Most Awesome Boardwalks" by Budget Travel and seven Grand Strand golf course layouts earned spots on "America's 100 Greatest Public Golf Courses" by Golf Digest. Samantha Brown, well known for her travel programs on The Travel Channel, has ranked Myrtle Beach #1 on her list Best Travel Spots on her show's website. Flipkey, the vacation rental company of leading travel website TripAdvisor.com, has listed Myrtle Beach as one of the best family vacation spots and one of "The Top East Coast Beaches."

There are many amusement attractions spanning the Grand Strand, and the 100 plus golf courses located in the area constitute one of the largest concentrations of like facilities in the nation. Golfers are able to tee-off on any of 1,800 golf holes in the area. Vacationing golfers played approximately 3.42 million paid rounds. Golf Week listed Dunes Golf and Beach Club among their “Best Classic Courses” in the United States.

Area golf courses have been designed by some of the best-known names in golf, including Jack Nicklaus, Arnold Palmer, Robert Trent Jones, Tom Fazio, Davis Love III, Greg Norman, Gary Player, and Pete and P.B. Dye. Many of the local courses host major professional and amateur golf tournaments including The Myrtle Beach World Amateur Handicap Championship, Hootie and the Blowfish Monday After the Masters, Palmetto High School Golf Championship, the Veterans Golf Classic and the Never Forget Memorial Golf Outing.

The Horry County area contributes a large portion of South Carolina’s golf revenue. This industry has been instrumental in the expansion of the tourist season, including early spring and late fall in our regular May through October season.

Retail sales, employment and construction are all intimately tied to the tourism industry. Retail sales tend to show a seasonal pattern, with the first quarter of each year noticeably below the other quarters. However, all signs indicate that the Myrtle Beach area is becoming more of a year-round tourism destination.

The recession affected the tourism industry and tourism related revenues had suffered since FY 2008. The combined total of state and local accommodations tax and the hospitality fees had dipped from a high of \$40.5 million in FY 2008 and continued to decline through FY 2010 where they had fallen to \$36.7 million. During FY 2011 and FY 2012 we saw the return of these combined revenues to the highest aggregate ever. The county wide 1.5% hospitality revenue collected in July 2013 by the merchants and remitted to the county in August, set an all time one month record of \$5.7 million. The collection of this revenue was highest on record for FY 2014. The recent trend in tourism related revenues appear to confirm that the county has seen the bottom of the recession and have begun the road to recovery for our largest industry, tourism.

AIRPORT

Horry County owns and operates the largest airport system in South Carolina with one commercial service airport serving the greater Myrtle Beach Region and three general aviation airports - Grand Strand, Conway, and Loris Twin Cities. The Grand Strand Airport (CRE), located in the city of North Myrtle Beach, serves private and corporate aircraft. The Loris Twin Cities Airport (5J9) is an unattended airport for public use. The Conway-Horry County Airport (HYW), located 5 miles west of the county seat of Conway, provides operations and services for the growing general aviation community in the western part of Horry County.

The Myrtle Beach International Airport (MYR) is a county facility located on approximately 2,000 acres within the City of Myrtle Beach and provides air service for the Grand Strand and surrounding counties. The airport consists of a passenger terminal complex, a 9,500-foot lighted runway and related taxiways, a general aviation apron and supporting buildings and hangars. The facilities are located on or adjacent to property formerly utilized as the Myrtle Beach Air Force Base. The following direct and indirect carriers presently serve the airport: Allegiant Air, Delta Air Lines, Porter Airlines, Spirit, United, US Airways and WestJet. These carriers collectively offer non-stop service to over 29 markets. The airport is also served by a number of charter services.

This year the county celebrated the first anniversary of completion of phase I of the county's Terminal Capacity Enhancement Project. Major components completed include a new 240,000 square foot passenger terminal that adds a new six-gate concourse and a new passenger corridor to the existing seven-gate concourse. The new passenger terminal provides sufficient ticket counter and airline ticket office space to accommodate the existing airlines servicing the Airport as well as potential new entrant carriers. The new terminal is complimented by a new free-standing rental car facility, new access roadways and new parking lots.

RIDING ON A PENNY

In November 2006 the citizens of Horry County passed a Capital Local Option Sales Tax referendum continuing the RIDE effort. This RIDE II initiative was a \$425 million dollar effort that improved 100 miles of county dirt roads, resurface 67 miles of county paved roads, widen Hwy 707, create a grade-separated interchange at Hwy 707 and Hwy 17 @ the Backgate, construct an overpass in Aynor over Hwy 501, widen Glenns Bay Road and create a grade-separated interchange at its intersection with Hwy 17 Bypass and pave International Drive to Hwy 90. These projects will be completed over the next several years and the sales tax sunset on April 30, 2014. Horry County utilized \$93.6 million from this initiative as a match to the South Carolina State Transportation Infrastructure Bank and was awarded a \$235 million grant for design, permitting and right of way acquisition of the Carolina Bays Parkway Extension from Hwy 544 to Hwy 707. This work began during the summer of 2007.

BUDGET PROCESS

OVERVIEW

The Horry County budget, when adopted by County Council, becomes the official financial plan of the County's operating departments. Consequently, this makes preparation of the budget one of the most important administrative duties performed each year.

The following information is designed to provide staff members, elected officials and residents with an overview of the budget process and the basic tools necessary to create budgetary estimates, if appropriate. Since the budget process involves all operating departments, administrative staff personnel and County Council Members, this document cannot include every aspect of the budget creation process. It can, however, be used as a road map for reflecting how the county creates its annual financial plan.

The budget process consists of four stages: departmental data collection, detailed budget information review, summary information and adjustments, and legislative review and adoption.

BUDGET CALENDAR

The preparation of the County's annual financial plan is a large task involving many people. In order to coordinate its creation, the Budget Office prepares a budget calendar. The calendar establishes the key dates to be met during the budget's creation and indicates which departments or individuals are responsible for preparing items for the budget. The calendar chronicles the budget process from the initial data gathering stages through the budget's adoption by the end of the current fiscal year.

Various departments and offices are involved in providing information for the annual budget. The following is a list of completion dates for each task, as they occurred for the preparation of the 2015 budget.

FINANCIAL DATA COLLECTION AND REVIEW

Horry County's financial planning process begins in November, and a final balanced financial plan must be approved before July 1, the beginning of the new fiscal year.

All department heads present a departmental budget to the Budget Office in a specified format with their requests for funding including explanations and justification for their requests. When the budget detail is available, conferences are scheduled between the budget team and each department director to review the department's specific detail.

The budget team for fiscal year 2015 consisted of the Administrator, the Budget Office, Finance Director, and the Assistant Administrators and the respective County Council. During budget discussions, department directors are given the opportunity to justify their requests. Each request is examined to determine if it will be included in the budget during the upcoming year or cut from the funding process. This is accomplished depending on the merit and justification of the requests and availability of funding.

After the Budget Office reviews and researches the departmental requests and makes projections for expected revenues, a balanced financial plan is presented to the Administrator. Once the Administrator is satisfied with the recommendations, the plan is presented to Council for discussion.

LEGISLATIVE REVIEW AND ADOPTION

Council must, according to state law, have three readings of the financial plan ordinance and a public hearing before it can be passed and become law. Council budget sessions are public, and citizen input is welcome. After the financial plan is analyzed by Council, any amendments must be incorporated into the ordinance before third and final reading. All adopted financial plans are placed in the county libraries and on the Horry County website for public access.

The financial plan is adopted on a basis consistent with generally accepted accounting principles (GAAP) other than the treatment of capital leases. Capital leases are budgeted to pay the current year payment as a part of the operating budget. Line item accounts (salaries, FICA, furniture & fixtures, supplies, etc.) within each department are monitored by the Budget Office, Finance and Procurement so that departments do not over-spend accounts. Single purchases up to \$1,500 require one oral quotation from vendor, purchases between \$1,501 and \$2,500 require oral quotations from at least two (2) vendors, purchases between \$2,501 and \$5,000 require written quotations from at least two (2) vendors, purchases between \$5,001 and \$25,000 require written quotations from at least three (3) vendors, and purchases in excess of \$25,000 require formal bidding procedures. All capital purchases not included in the financial plan must be approved by the Administrator.

BUDGET AMENDMENT

The Administrator is authorized to transfer budgeted funds within a department and is also authorized to transfer budgeted funds between departments in the General Fund, Special Revenue Funds, Debt Service Funds, Proprietary Fund, Internal Service Funds and Capital Improvement Projects Fund when deemed necessary. Budget transfers within departments are requested by the department manager, approved by the Assistant Administrator for the division the department is in, and reviewed and approved by the Budget Office to insure availability of funds for transfer under the direction of the County Administrator. Transfers between departments are reviewed by all department managers involved and their Assistant Administrator and the Budget Office.

All budget transfers are documented by the Budget Office and recorded in the county's computerized financial accounting system with the paper documentation maintained in a numeric file as evidence of the appropriate approvals.

Formal budgetary integration is employed as a management control device during the year. Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Special Revenue Funds, and Capital Improvement Projects Fund. Encumbrances outstanding at year end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

No expenditure in any one of the governmental type funds will exceed the budgeted expenditure amount for that fund without prior amendment of the financial plan ordinance by Council. All amendments, with the exception of those approved by SECTION 9, SECTION 10, SECTION 12 and SECTION 15 of the Budget Ordinance require a supplemental budget ordinance with three readings by County Council and a public hearing. Budget transfers between funds also require amendment to the original ordinance except when funding is already budgeted in one fund and is more appropriately accounted for in the receiving fund. When transfer are completed for more appropriate accounting purposes, they may be completed with only an approval of County Council by resolution.

BUDGET BASIS

The budgets of all government fund types are prepared on a modified accrual basis. This means that revenues are recognized when they become both measurable and available and expenditures are recognized when the liability is incurred. The Proprietary and Internal Service funds are budgeted on a full accrual basis. This means that revenues are recognized when they are actually obligated to the county. Expenditures are recognized when the related liabilities are incurred. These funds are the Airport, Fleet Management, and the Solid Waste Authority.

FISCAL POLICIES

Horry County has a tradition of sound financial management. It is the policy of the administration and the Budget Office and Finance to continue this sound financial management to insure fiscal strength through all economic trends. As has been learned most recently, market factors, global economic conditions, lifestyle changes, actions by regulatory agencies and executive, legislative and judicial decisions made by other governmental jurisdictions all have a direct impact on the county.

The following financial goals have been reviewed as part of the financial planning process and reaffirmed as the basis for developing this budget.

BUDGETING

A comprehensive annual financial plan will be prepared for all funds expended by the county. Inclusion of all funds in the financial planning process enables the Council, the Administration and the public to consider all financial aspects of County Government when preparing, modifying, and monitoring the plan, rather than deal with the county's finances on a "piece meal" basis.

The county's Financial Plan will be prepared in such a manner as to facilitate its understanding by citizens and elected officials. The County Council will hold work sessions as well as the required public hearing which are open to the public in order to effectively communicate local government finance issues to all who attend the meetings.

Financial priority will be given to the basic county services which provide the maximum level of services to the most citizens, in the most cost effective manner, with consideration given to all costs including economic, fiscal and social.

The county has developed a multi-year program for capital improvement, will update it annually and make all capital improvements in accordance with the program. On November 9, 2004, County Council passed Resolution 158-04 adopting capital improvement program policies. This policy is revised by resolution as needed with the most recent revision Resolution 71-14 on September 16, 2014. During FY 2015, the county will be building upon and improving the Five Year Capital Improvement Plan process in accordance with these policies.

The county will maintain its physical assets at a level adequate to protect the county's capital investment and minimize future maintenance and replacement costs from current revenues where possible.

REVENUE

The county endeavors to maintain a diversified and stable revenue base to shelter it from short-term fluctuations in any one revenue source. The revenue mix combines elastic and inelastic revenue sources to minimize the effect of an economic downturn.

The county follows a "cost of service" approach where possible, which results in user fees, rates and customer charges being sufficient to cover the cost of providing services. Each year, user fees, rates and charges are reviewed for adjustment to "cost of service" levels.

Proprietary and Internal Service funds have set fees and user charges at a level that fully supports the total direct and indirect costs of the activity. Indirect costs include the cost of annual depreciation of capital assets.

The county will attempt to obtain additional major revenue sources as a way of insuring a balanced budget.

The county makes a strong effort not to use one-time revenues for continuing expenses. All new and continuing expenses will be based on known and conservatively projected revenue sources.

EXPENDITURES

The county will maintain a level of expenditures which will provide for the public's well being and safety of the residents of the community.

Expenditures will be conservatively projected and will be budgeted within the confines of generated revenues. Since our employees are our biggest asset, a performance based compensation package consistent with sound economic policies of the county is maintained to recruit and to retain qualified employees.

DEBT ADMINISTRATION

The county will confine long-term borrowing for capital improvements that cannot be financed from current revenues or reserves.

The county will publish and distribute an official statement for each bond issued.

The county will target long-term borrowing for construction and acquisition of long-lived capital assets only, with the remainder financed by annual appropriations.

General obligation debt will not be used for enterprise activities.

The county will maintain good communications with bond rating agencies about its financial condition. The county will follow a policy of full disclosure on every financial report and bond prospectus.

The county will not issue notes to finance operating deficits.

RESERVES

The county will maintain general working capital and reserves to provide a sufficient cash flow for financial needs at all times and to offset significant economic downturns.

The county will maintain sufficient cash reserves to enable the county to continue to provide needed services to its citizens in the aftermath of a natural disaster or other type of serious widespread emergency. By ordinance, the county maintains 15% of the operating budget in Fund Balance to ensure there is available funds in the lower revenue collection periods.

CASH MANAGEMENT

A cash management policy has been adopted by the county which provides guidelines for prudent investment of cash and outlines policies for maximizing efficiency of the cash management system.

The ultimate goal is to enhance the economic status of the county while protecting its pooled cash. In order to maximize interest earnings, the county commingles the cash of most funds. Criteria for selecting investments are:

- 1) Safety - The safety and risk associated with an investment refers to the potential loss of principal, interest or a combination of these amounts. The county only invests in investments that are considered safe.
- 2) Liquidity - This refers to the ability to "cash in" at any moment in time with a minimal chance of losing any portion of principal and interest.
- 3) Yield - Yield is the potential dollar earnings any investment can provide, also referred to as the rate of return

ACCOUNTING, AUDITING AND FINANCIAL REPORTING

All accounts are organized on the basis of funds or account groups, each considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures as appropriate.

The county system is comprised of the following 40 individual funds (fund structure page 17):

General Fund	Horry-Georgetown TEC	GIS/IT Special Revenue
Fire	Road Maintenance	E-911 Emergency Telephone
Fire Apparatus Replacement	Beach Nourishment	County Recreation
Tourism & Promotion	Admissions Tax-Fantasy Harbour	Capital Projects
Waste Management	Victim Witness Assistance	General Debt Service
Cartwheel Watershed	Senior Citizens	Special Revenue Debt Service
Buck Creek Watershed	Arcadian Shores	Ride Plan Debt Service
Crabtree Watershed	Baseball Stadium	Airport
Gapway Watershed	Economic Development	Fleet Maintenance
Simpson Creek Watershed	Stormwater Management	Fleet Replacement
Todd Swamp Watershed	Aynor (Cool Spring) Business Park	Heavy Equipment Replacement
Mt. Gilead Road Maintenance	Hidden Woods Road Maintenance	Solid Waste Authority
Socastee Community Recreation	Solicitor Fund	
Higher Education	Public Defender Fund	

As with the budget process, the modified accrual basis of accounting is used by all government fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers property taxes as available revenue recognition for other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred.

Funds determined to be the difference between revenues and expenditures at June 30, the end of the fiscal year, are transferred into the fund balance of the appropriate fund.

The county will establish and maintain a high standard of accounting practices in conformance with Generally Accepted Accounting Principles (GAAP) for governmental entities as promulgated by the Government Accounting Standards Board (GASB).

The county will produce Comprehensive Annual Financial Reports (CAFR) in accordance with General Accepted Accounting Principles (GAAP) as outlined by the Governmental Accounting Standard Board (GASB).

An independent firm of certified public accountants, selected by the County Council based upon public procurement practices, will perform an annual financial and compliance audit according to Generally Accepted Auditing Standards (GAAS) and will issue an opinion which will be incorporated in the Comprehensive Annual Financial Report.

BUDGET SUMMARY

REVENUE HIGHLIGHTS

General Fund:

The reassessment of all property is mandated by state law every five years. The reassessment process requires a roll back of millage to ensure that there is no revenue windfall. Once the process for reassessment was completed, the analysis revealed that the county has experienced a slight decrease in assessed value. This decline would allow the county to increase its millage to maintain the same level of revenue. However, County Council has voted to not increase county-wide millage rates. The county will manage any decline in revenue it may experience. For budget purposes, County General Fund FY 2015 tax revenue for property tax on real estate is projected to be same revenue from the tax levy collected in FY 2014 at \$59.5 million. The Personal Property Tax revenue for FY 2015 is expected to be at the same level as projected FY 2014 revenue at \$4.2 million. Vehicle tax revenue for FY 2014 increased to \$5.5 million from \$5.0 million in FY 2013. For FY 2015 vehicle tax revenue is projected to be the same as FY 2014.

FY 2014 revenues associated with land ownership transfer and development increased from the FY 2013 level with building permits increasing by \$199,377 or six percent while Register of Deeds sale of documentary stamps increased by \$413,101 or sixteen percent. For FY 2015 documentary stamp and building permit revenue trends were taken into account with building permits budgeted at the same level as FY14 at \$2.8 million and Documentary stamps budgeted at a slight increase at \$2.55 million.

The number of residential building permits for new construction increased by eight percent from 1,756 in FY 2013 to 1,889 in FY 2014. Collectively, the number of residential permits issued for remodeling, additions, and garage/ carports increased slightly. However, commercial permits issued declined by 14 percent from 304 to 262. According to the Local Realtors Association, there was a multi-year supply of single-family residences available as of the end of FY 2011. This extra inventory continues to be depleted providing housing for new buyers in addition to the new construction.

For FY 2015 the Local Government Fund (the revenue the State sends back to the local jurisdiction) is budgeted the same as the budget for FY 2014 at \$9.9 million. The State continues to fund the Local Government Fund significantly below the amount required by the formula in the law. The all time peak of revenue received was \$11.3 million in FY 2008.

During the budget process, early indicators were that FY 2014 Business License revenue was going to come in on budget. Therefore, for FY 2015 Business License revenue is budgeted conservatively at \$3.9 million.

BUDGET SUMMARY

REVENUE HIGHLIGHTS

General Fund (continued):

Master in Equity Fees and Sales commissions decreased from \$2.0 million in FY 2013 to \$1.8 million in FY 2014. For FY 2015 these revenues are projected at the \$1.8 million level as foreclosures continue to slow and the Master in Equity works through the backlog of existing cases.

The FY 2015 budget includes a planned use of fund balance of \$7.8 million. \$2.4 million is planned to continue the capital improvement program. Another \$1.7 million was allocated to other smaller capital purchases and one-time uses. Also, \$250,000 is allocated to funding the county's Post Employment Benefit liability and \$516,000 for health insurance and gas contingency. For the third time in many years the county is utilizing fund balance to fund recurring operations. The economy's effect on revenues over the last several years has made it necessary to utilize fund balance to avoid additional major cuts to services. However, the county will still be in the position to maintain the minimum 15% of the budget committed to stabilization required by the county's financial policy.

Other Funds:

Revenue in other tax related funds are budgeted at same level as FY 2014 and are expected to decrease slightly as the effects of the state mandated reassessment are realized.

Revenues related to tourism industry recorded in the Ride Plan Debt Fund (1.5% Hospitality Fee) continue to be on the rise. The Tourism Promotion Fund (2% Accommodations Tax Fee) are expected to stay at the same level as FY 2014.

REVENUE SOURCES

Taxes - The county's source of tax revenue is the real, personal and vehicle taxes levied against the citizens. Taxes are 55 percent of the total General Fund revenue source and are based on the assessed value of property. The county's estimated assessed value for all real property, personal property and vehicles as of June 30, 2014 is \$2,097,839,000 (before reassessment). The tax payment to the county is determined by the following formula. Multiply the appraised value by the assessment rate to determine the assessed value of the property. The assessment rate of all property is determined by the state as shown in the following chart.

Assessed Values:

Legal Residential	4.0% of market value
Rental & Secondary Property	6.0% of market value
Agricultural Real Property (privately owned)	4.0% of market value
Agricultural Real Property (corporate owned)	6.0% of market value
Commercial Real Property	6.0% of market value
Manufacturing Real and Personal Property	10.5% of market value
Utility Real and Personal Property	10.5% of market value
Personal Property (other than airplanes & boats)	10.5% of market value
Airplanes	4.0% of market value
Boats	6.0% of market value
Personal Vehicles	6.0% of market value (January to December 2015)

The assessed value is then multiplied by the millage rate to determine the tax payment due to the county for county purposes only. The following example reflects the formula as applied to a \$100,000 primary residence in an unincorporated area of the county.

Example:

\$100,000 Residential Home

$\$100,000 \times .04 = \$4,000$

$\$4,000 \times .0724 = \289.60

If the residence was located within a municipality, the payment due to the county for county purposes would be determined as follows:

The assessed value is then multiplied by the millage rate to determine the tax payment due to the county for county purposes only. The following example reflects the formula as applied to a \$100,000 primary residence in an incorporated area of the county.

Example:

\$100,000 Residential Home

$\$100,000 \times .04 = \$4,000$

$\$4,000 \times .0452 = \180.80

Tax revenues are projected to increase steadily. One current collectable mill of tax is projected to generate \$2,049,124 for FY 2015 versus \$2,062,829 projected actual for FY 2014.

The county's millage rates for the last six (6) years are:

Taxes in special districts are only applied to the areas that received services from the special funds (normally unincorporated areas of the county). The dollar value per mill in special districts vary from the dollar value for county wide mills.

Intergovernmental - Intergovernmental revenue is comprised of all funds received from the federal and state governments. Other federal and state funding remains relatively constant for the next fiscal year. State funding consists of grants, taxes distributed on a per capita basis - income tax, liquor tax, beer and wine tax, bank tax, brokers premium tax, insurance tax - and funds for drug and fire education. Federal funding consists primarily of grants. Due to the uncertainty of possible awards, grants are not normally projected in the original budget. By budget ordinance, approved grants increase the budget as they are approved.

Fees & Fines - County fees and fines include those collected through the Clerk of Court, Magistrate Civil and Criminal Courts, Probate Court, Register of Deeds, EMS, Solid Waste and Airport Departments. County fees are mandated by State and county government with State laws having precedence over county laws. The budget includes a 2.5 percent hospitality fee that is collected on the sale of food and beverages, admissions and accommodations. This fee is currently pledged to the county's RIDE plan debt, road maintenance, resurfacing and paving, baseball stadium operations, and public safety. The budget also includes a fee called the local

accommodation tax and is collected on all accommodations in the unincorporated area of the county. The revenue derived from this fee is pledged 20 percent to beach nourishment and the balance pledged to cover public safety activities related to tourism.

Documentary Stamps - Documentary stamps are State required stamps that are paid on all property deeds with a stated selling price over \$500. State stamps are \$2.20 per \$1,000 of the selling price from which the county receives 3% and the county stamps are \$1.10 per \$1,000 of the selling price from which the county receives 100 percent.

Licenses and Permits - Licenses and permits constitute revenue collected for mobile home permits, building permits, business license and marriage licenses. Increases in license and permit revenues will come primarily from business licenses and building permits.

Interest on Investments - This is interest earned by the county on funds invested by the Treasurer.

Sale of Property and Equipment - This category represents funds received from sale of county disposable assets and confiscated property.

Other - These revenues are for miscellaneous items (return check charges, sale of copies, rents and leases, etc.)

Transfer In - Transfers In occur when revenues are collected in one fund and are transferred to another fund where they are expended. An example for Horry County occurs in the use of fire funds to satisfy debt service on the Fire Bond. In this instance, an excess of \$1.7 million is collected in the Fire Fund and then transferred to the General Debt Service Fund. It would represent a Transfer In in the General Debt Service Fund as an "Other Source" and would be counted as a revenue source when it is received in the Fire Fund. The Transfer Out from the Fire Fund would be an "Other Use." This results in a double counting of the revenues and expenditures from an overall total perspective.

Fund Balance - This is the accumulated excess of revenues over expenditures for each of the various funds. The amounts labeled as fund balance under the revenue section of each activity is the amount of fund balance appropriated for use this fiscal year.

EXPENDITURE HIGHLIGHTS

The FY 2015 Budget includes sixty-nine (69) new positions and deletes five (5). The majority of the new positions were added to the Public Safety Division. The Fire Fund received a pool of thirty (30) Part-time Firefighter positions to cover shifts when someone is out in an effort to reduce overtime costs. The Sheriff department received two (2) additional Court Security Officers for increased security within various courts around the county. The Detention department received twelve (12) new Correction Officer positions required by the South Carolina Department of Corrections to keep in compliance with the Prison Rape Elimination Act (PREA). The Animal Care Center receive five (5) Part-time Custodial Workers for weekends and holidays. Two (2) Supervisors were also added to oversee the county Litter Program. The Public Works department was awarded seven (7) Part-Time Heavy Equipment Operators for seasonal mowing and road scraping. The remainder of the position additions and deletions are due to increased workload and reorganizations. A summary of position additions and deletions can be found on pages 61-62.

The FY 2015 Budget includes eight (8) un-funded positions as an ongoing cost saving measure in the Solicitor's state funded Victim Witness department and the Recreation department. These positions are not funded as a part of the FY 2015 budget. However, these positions are not formally deleted. The Solicitor's state funded positions can only be filled if additional funding is identified during the budget year.

The FY 2015 Budget includes a 2% cost of living adjustment for employees. Additionally, the County budget covered increased cost for employee retirement contributions and health insurance premiums.

The FY 2015 Budget includes \$4.48 million for the lease/purchase of P-25 compliant 800 MHZ Radio Equipment and a Mobile Video solution for Public Safety, and Digital Radios for the I&R Division. Also, a \$15 million placeholder has been budgeted for the migration to P-25 Infrastructure. Migrating to a P25 Digital system will allow interoperability between agencies in emergency situations, not only in the county, but also on state-wide systems that operate using P25 protocols. Additionally, funding to continue the implementation of a new ERP System was included at \$506,526. The project has been named Project EAGLE (Everyone Aligned to Generate Lean Efficiencies).

The FY 2015 Budget again includes County Council's priority of increased investment in diversifying the employment opportunities for our citizens by promoting the relocation of industry and other non-tourism based employers to Horry County. To this end County Council has included an appropriation of \$1.3 million for the Myrtle Beach Regional Economic Development Corporation to promote the relocation and retention of industry.

EXPENDITURE USES

Personal Services - The county's largest ongoing annual expenditure is the Personal Services category. This consists of all County employees' salaries and fringe benefits. The county presently has 2,462 budgeted positions. This increase in employees is a positive correlation with the increasing demand for services. Improved services in Public Safety are reflected with increased staffing levels to meet performance measures.

Operation - The county's operating expenses include all necessary expenses to provide daily support services (supplies and materials, contractual services, business and travel).

Construction - Construction expenditures are primarily used in the county's Capital Projects Fund. These expenditures are directed toward major capital improvement projects, engineering and architectural expenses, construction and equipment costs. Capital projects can be constructed in-house or contracted to others.

Road Maintenance - Road Maintenance funds are used for improving and paving County roads. In FY 98 a fund was created to maintain the revenues and expenditures to be used toward maintaining County roads. These funds are generated from a \$30 fee charged on each vehicle registered within the county. County Council indorsed the continuance of this plan for a fourth 5 year period. FY 2015 is year eighteen.

Capital Outlay - Capital Outlay funds are used for purchasing assets (cars, computer equipment, office furniture, office equipment and other machinery and equipment). For the FY 2015 Budget the minimum dollar amount for an item to be considered an asset is \$5,000. Capital Outlay for major projects (construction, machinery and equipment, capital leases, etc.) has a minimum dollar amount of \$100,000. All items are approved during the budget process, and unapproved items should not be purchased during the fiscal year unless an emergency situation exists.

Debt Service - Debt service expenditures are used for principal and interest payments on long term debt. The county debt is limited by state law to a cap of 8% of total assessed property values (real and personal) unless approved by referendum.

Supplements - Supplemental expenditures are funds given to non-profit agencies in the county. These agencies request funds during the budget process and are given consideration by Council. Agencies must present financial statements to the Finance Office reflecting expenditure of these funds.

Contingency - Contingency funds are funds set aside for expenditures that may arise at an undetermined time such as emergencies.

Other - Other expenditures include any miscellaneous items that are not covered by the above categories.

Transfers Out - Transfers Out occur when funds received in one fund are budgeted to be expended in another fund. The transfer of these funds represents an “other use” of the funds in the in the donor fund and an “other source” in the receiving fund. “Transfers Out” must equal “Transfers In” from a total budget perspective. This process double counts these funds since they get counted as a revenue and an “other use” in the donor fund and as an expenditure and an “other source” in the receiving fund.

The mission of the Emergency Management Department is to administer an all-hazards comprehensive emergency management program that is fully coordinated, trained and exercised; that emphasizes partnerships with the local community, volunteer organizations, the private sector, and state & federal agencies; and that improves the disaster resiliency of the citizens of Horry County.

GOALS AND OBJECTIVES:

Divisional Goal: Ensure a safe and effective work environment through the development, implementation and adherence to S.C. Law, Policies, Plans, and Standard Operating Procedures/ Guidelines.

Department Objectives:

- a. Obtain a resolution to secure the identified county owned property for the site of the Critical Services Complex as stated in the Horry County Critical Services Complex Detailed Spatial Needs Assessment Final Report, September 2012.

Division Goal: Recruit and retain a highly-skilled workforce through a fair compensation package and appealing work environment.

Department Objectives:

- a. Provide a working environment within the department that is based on our core values of honesty, integrity, professionalism and leadership.

Division Goal: Ensure the County's long-term financial ability to deliver quality services through appropriate long-term contingency planning within the Emergency Management Department.

Department Objectives:

- a. Revise the Emergency Operations Plan to align with Presidential Policy Directive Eight: National Preparedness, and meet the Emergency Management Accreditation Program planning standards.
- b. Publish the Horry County Short-Term Recovery Plan and coordinate with the Area Recovery Council to prepare for the community long-term recovery planning process.
- c. Develop the Preparedness Section of the Comprehensive Emergency Management Plan (CEMP) to include a county-wide training and exercise program, planning and resource management annex, public education and outreach annex, and a county-wide gap analysis of our resources.
- d. Update the Horry County All-Hazards Mitigation Plan to include a newly required Threat and Hazard Identification Risk Assessment (THIRA) and incorporate all local jurisdictions to present a more cohesive mitigation strategy.
- e. Publish a comprehensive, county-wide multi-year training and exercise plan that provides a strategy to accomplish the priorities described in the Homeland Security Strategy, achieve the core capabilities, and meet the EMAP training and exercise standard.

EMERGENCY MANAGEMENT**DEPARTMENT NUMBER: 454****GOALS AND OBJECTIVES (continued):**

Division Goal: Develop and continuously improve systems to assure effective and quality services to customers through management of a comprehensive public safety program, effective training programs, and an ongoing commitment to the highest level of customer service.

Department Objectives:

- a. Collect feedback from our stakeholders and the community through a survey on the department's website. This survey will provide for coordinated input in the preparation, implementation, evaluation and revision of the program.
- b. Expand organizational capability through analysis of future county growth and corresponding multi-jurisdictional requirements.
- c. Enhance the public education program through budgetary commitments to StormFest and the Know Your Zone campaign.
- d. Design and implement a business continuity planning program which will provide assistance and tools for local businesses to develop disaster preparation and recovery plans.
- e. Revitalize the multi-jurisdictional emergency planning initiative by hosting an executive level multi-jurisdictional function exercise and coordinating a county-wide gap analysis of our local resources in support of disaster planning.
- f. Coordinate the county's severe weather readiness certifications by processing and renewing the Storm Ready and Tsunami Ready certifications through the National Weather Service.
- g. Manage the county's Community Rating System Certification (CRS) process by collaborating with other county departments to meet current requirements and improve the rating, which lowers flood insurance costs for citizens in the unincorporated areas of the county.
- h. Assess and further develop emergency management program areas to meet the Emergency Management Accreditation Program (EMAP) standards which promotes excellence and accountability for local and state governments.

SUPPLEMENTS**DEPARTMENT NUMBER: 494****SERVICE STATEMENT:**

Accommodations tax is the funding received from the state government as a result of a 2% room tax collected from local hotels and motels. Funds are dispersed based on a state formula. The first \$25,000 and 5% of all other collections are applied to the County General Fund and all other funds are dispersed to county agencies that are tourism related. The Accommodation Tax Committee takes requests from these agencies and makes recommendations to the County Council for disbursement of funds. County Council makes the final decision on appropriations.

GOALS AND OBJECTIVES:

To give assistance to as many agencies as possible to improve the tourism industry in Horry County.

*** Service Statement and Goals and Objectives are included in General Fund Department 404.**

PUBLIC WORKS – CONSTRUCTION**DEPARTMENT NUMBER: 471****SERVICE STATEMENT:**

Improve county maintained roads by means of constructing and paving roads. This includes, but is not limited to, installing tile for roadside drainage, clearing and grubbing, drainage design and improvements, subgrade preparation, base preparation, fine grading, testing and seeding.

GOALS AND OBJECTIVES:

Division Goal: Develop initiatives that reduce operating costs and increase efficiencies while maintaining an acceptable level of service.

Department Objectives:

- a. Continue to maximize our capabilities in the use of three-dimensional modeling and machine control in order to produce quality product at an efficient rate.
- b. Continue to utilize contractor provided resources to supplement in-house forces where it is of benefit to our programs – e.g.- contract hauling and R/W clearing.
- c. Continue to refine our construction techniques and processes.

Division Goal: Develop SOP's that comply with and which are consistent with Horry County Financial and Procurement Policies.

Department Objectives:

- a. Formalize SOP's that take advantage of the encouragement and flexibility allowed by Procurement Policies to attain the best value in products and services needed for our operations.
- b. Continue to develop and formalize Public Works accounting procedures and policies that will demonstrate accountability, responsibility, and openness.

Division Goal: Provide superior customer service.

Department Objectives:

- a. Encourage and further develop our interaction with the property owners and residents along roads that will be/are being paved through the use of door hangers, fliers, and community meetings when necessary.
- b. Encourage and establish buy in by property owners and residents through open communication and by making clear any commitments and then following through on those commitments.

Division Goal: Foster positive relationships with the community.

Department Objectives:

The objectives below are the same as the objectives for "Provide superior customer service." In the case of Road Construction the "community" and "customer" are the same and uniquely finite.

- a. Encourage and further develop our interaction with the property owners and residents along roads that will be/are being paved through the use of door hangers, fliers, and community meetings when necessary.
- b. Encourage and establish buy in by property owners and residents through open communication and by making clear any commitments and then following through on those commitments.

PUBLIC WORKS – CONSTRUCTION**DEPARTMENT NUMBER: 471****GOALS AND OBJECTIVES (continued):**

Division Goal: Conduct day to day operations focusing on the safety of our employees and the public who utilize our infrastructure and facilities.

Department Objectives:

- a. Continue weekly safety training with employees.
- b. Provide up to date safety training classes for all employees to ensure their certifications are appropriate, sufficient, and current.
- c. Continually look at ways to improve road maintenance that ensures the safety of the citizens.
- d. Continue to respond to CityWorks complaints in a timely manner.
- e. Continue our working relationship with the Engineering Department as we both work towards our goal of providing and maintaining safe travel ways for the public.

Division Goal: Provide innovative technical support and advice to various County departments and the public for transportation, development planning, stormwater, planning and zoning and code enforcement related issues.

Department Objectives:

- a. Continue to provide assistance to other departments and agencies when our expertise and resources are needed to construct certain types of projects.

Division Goal: Provide a project oriented approach to those capital improvements approved by County Council utilizing professional and technical expertise related to infrastructure and vertical construction.

Department Objectives:

- a. Continue to construct roads that meet budget constraints, local standards, state standards, and federal standards, community expectations, and long term maintenance objectives.

Division Goal: Provide regular dependable and safe access across all county maintained rights of way.

Department Objectives:

- a. Continue to construct roads that meet driver's expectations, that are properly signed, and can handle the expected traffic type and volumes.
- b. Continue to construct roads that meet the expected design life.

Division Goal: Improve and maintain Horry County's road network through the Horry County Local Comprehensive Road Plan and Capital Local Option Sales Tax program.

Department Objectives:

- a. Continue to construct and pave roads as funded by the Horry County Local Comprehensive Road Plan.
- b. Continue to improve unpaved roads with suitable material as funded by the Horry County Local Comprehensive Road Plan.

PUBLIC WORKS – CONSTRUCTION**DEPARTMENT NUMBER: 471****GOALS AND OBJECTIVES (continued):**

Division Goal: Create management plan(s) to maintain and improve Horry County's infrastructure, roads (paved and unpaved), stormwater systems (open and closed), watersheds and drainage ditches.

Department Objectives:

- a. Continue to provide assistance and support to the pavement management system managed by the Engineering Department.
- b. Continue to develop the sign maintenance program by providing inventories of new signs installed at the completion of a new road.
- c. Coordinate an effort with the Stormwater Department to map and assess all county maintained closed drainage systems by utilizing survey data collected for use in our three-dimensional modeling systems.
- d. Develop a comprehensive improvement plan for all unpaved roads for the proper selection and budgeting of funds for improvements to drainage, driving surface, and signage.

Project Title:
ERP System-Project "EAGLE" (Everyone Aligned to Generate Lean Efficiencies)

Project Description:
 Implementation of an Enterprise Resource Planning (ERP) system, will replace the current legacy system used for all financial applications, including general ledger, cash receipts, cash disbursements, procurement, inventory, billing and payroll; will provide Human Resources Management, Tax Billing, Fleet, and Parks & Recreation systems.

Operating Cost Impact:
 Existing contract programmer expenses will be replaced by the end of this implementation with outside software company support providing regular enhancements, best practice business processes, and continuous improvement process.

Project's Return on Investment:
 Efficiencies gained by business process improvements will be sufficient to cover investment cost. Increased capacity will be redeployed to service enhancement and to reduce the growth in future expenditures.

Expenditures:	Total Estimated Cost	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
Software & Equipment	\$ 6,208,485	\$ 506,526	\$ 506,549	\$ 506,549	\$ 506,549	\$ 506,549

Expected Completion Date:
 November 2015

Justification:
 A comprehensive needs assessment identified opportunities for business process improvements and addressed critical system security deficiencies.

Project's Impact on Other Departments:
 Business process efficiencies will automated document workflows, enhanced informational access and analytics for decision-making, and reduction of administrative burden from current shadow systems needed to limitations within current software.

Project Title:	Expected Completion Date:											
Aerial Photography	N/A											
Project Description:	Justification:											
Aerial photography including planimetrics-flyover every two years	This project is the basis for updating the county's base map. The imagery and planimetric update is the primary source of information to support the Stormwater Billing and used for assessment purposes.											
Operating Cost Impact:	Project's Impact on Other Departments:											
With the increased construction taking place in the county over the last year, it is important to update the planimetric data for future stormwater billing. It is also used as a base for the assessment process of tax parcels.	The aerial images are used by all departments for accurate GIS information. The imagery is the base layer used for 911 Dispatching, Code enforcement and issuance of building permits, stormwater billing, assessment information and data. This information is the base layer for all county GIS applications.											
Project's Return on Investment:												
Providing the accurate impervious service information for stormwater billing along with proper assessment information. Capture of structures needing assessment and the ability to analyze change detection means the data is invaluable to county operations.

Fiber Relocation	N/A
Project Description:	Justification:
3 Year Lease for Fiber Relocation	This project is in response to several road expansion projects. This project is needed to relocate the fiber that is located in the way of the road expansions.
Operating Cost Impact:	Project's Impact on Other Departments:
The County's communication network is an essential tool and as such we must continually insure our investments are safe from damage and allow County operations to receive daily the benefit of this fiber technology.	This relocation will insure all systems within the Glenn's Bay Road area are operational, which includes the South Strand Complex, Library, and public safety facilities.

Project's Return on Investment:
This project provides the continuity of operations and protects the County's investment in fiber technology.

Project Title:
Phase 2 Fiber Loop

Project Description:
 7 Year Cisco fiber lease ring closure and Cisco equipment

Operating Cost Impact:
 Once the final payment of the lease is completed the County will own the fiber. This investment has a 25+ year life and unlimited possibilities of technology. The installation of fiber mitigates communication costs and future increases of communication costs to meet County operational needs.

Project's Return on Investment:
 The connected fiber path provides redundancy and survivability, and provides for a high level of availability of the critical public safety software applications utilizing the network.

Expected Completion Date:
 January 2015

Justification:
 Critical Fiber to Close the loop between North Myrtle Beach and Myrtle Beach. (Lease Year 7)

Project's Impact on Other Departments:
 This project provides system assurance and stability of operations to all departments.

Expenditures:	Total Estimated Cost	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019

Public Safety Technology Improvements, Phase 3

Project Description:

Year 3- 5 Year PSA (Public Safety Application) Suite Upgrade -CAD (Computer Aided Dispatch), Law Enforcement Records, Interface to Court records and Solicitor records, Mobile data, Jail records, Fire/EMS records.

Operating Cost Impact:

The technology used to power the public safety departments needs to be refreshed approximately every 5 years. The associated hardware to operate this system will also have a 5 year lifespan.

Project's Return on Investment:

This project is intended to provide a more efficient means of delivering public safety to the citizens of Horry County.

Expected Completion Date:

June 2017

Justification:

This upgrade is critical to the delivery of public safety services to Horry County citizens. This suite provides an integrated approach to technology, resulting in more efficient service.

Project's Impact on Other Departments:

This project will serve as the technological foundation of public safety for all Horry County Public Safety Departments. Additionally, the public safety agencies for other municipal public safety departments will utilize this application suite.

Project Title:

E-911 Uninterruptible Power Supply (UPS)

Project Description:

Replace the existing UPS that powers essential equipment in the E-911 Center.

Expected Completion Date:

Fall 2014

Justification:

The existing UPS is approx. 13 years old. Maintenance advised that replacement is necessary for continuous delivery of power to the E-911 Center.

Operating Cost Impact:

Annual maintenance costs of \$5,000 for the Emergency Telephone Fund.

Project's Impact on Other Departments:

The UPS is a critical component to the continuous delivery of power to the essential telephone, radio and CAD systems that are used by E-911 to dispatch to Fire, EMS, Sheriff and Police departments and a failure cannot be tolerated.

Project's Return on Investment:

Continuous power is essential for the timely dispatch of emergency resources to our citizens and visitors.

Project Title:

CJIS Security

Project Description:

Provides enhanced required security on the County's infrastructure and information technology systems. While the focus of the security relates to criminal justice information, the entire network must meet the same requirements.

Expected Completion Date:

January 2015

Justification:

Federal Law Enforcement Agencies, including the FBI have mandated tighter security to networks and data systems to prevent unauthorized access and dissemination of CJIS information. Agencies, such as the county must meet the requirements or be denied access to critical law enforcement information.

Operating Cost Impact:

Ongoing support and maintenance will be absorbed within the Information Technology budget with no additional capital expenditures.

Project's Impact on Other Departments:

While the focus is Criminal information, the information and data resides and travels across the county's infrastructure. Therefore, the entire network must meet the CJIS requirements.

Project's Return on Investment:

Protection of citizens is based on the ability to access and share criminal information across jurisdictions. The inability to access such information would cripple law enforcement agencies.

Expenditures:	Total Estimated Cost	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
Software	\$ 370,000	\$ 175,000

Project Title:

P-25 Radio System Infrastructure

Project Description:

Migrating to a P25 Digital system will allow interoperability between agencies, not only within the county, but also on state-wide systems that operate using the P25 protocols. Interoperability is critical in emergencies when mutual aid is required. Digital voice technology provides a longer range of transmission as well as clear voice recognition. The 6 tower sites will need to be upgraded, 2 additional towers site may be needed, and the 911 tower site will be converted to the prime transmission site.

Operating Cost Impact:

Unknown at this point.

Project's Return on Investment:

Replacing end-of-life radio transmission equipment will provide the county, and all agencies utilizing the system, reliable, clear, and accurate radio transmissions for the next 10-15 years (depending on technology advancements, as well as State and FCC requirements).

Expected Completion Date:

Estimated December 2016

Justification:

The county is actively planning to phase out aging analog equipment. The current 800MHz radio system utilizes analog technology for the backbone transmitters and uses a mix of analog and digital subscriber equipment. The county will no longer acquire analog radios as this legacy handheld equipment is in its final phase of support. Newly acquired radios use digital technology or a hybrid of both analog and digital. The most important benefit of digital radio is to make more efficient use of licensed 25 KHz and 12.5 KHz channels. The airwaves are becoming more and more crowded, and the old licensed channel structures are no longer adequate to carry the increasing broadcast and radio traffic projected in the future. By migrating from analog to digital two-way radio communications, the county can build a strong technical foundation for adding new functionality in the future.

Project's Impact on Other Departments:

With over 40 county-wide agencies and some 3,900 radios on the system, all Public Safety entities not just Horry County depend on this system. Law enforcement and public safety agencies need reliable systems that enable communication with their counterparts in other disciplines and jurisdictions.

Project Title:
Radio and Video Equipment Lease/Purchase

Project Description:
 Lease/Purchase P25 compliant 800 MHz Radio Equipment, MotoTrbo Digital Radios and MVX1000 Mobile Video Solution Lease payments on 8 year terms. New radios will replace aging, end-of-life radios.

Operating Cost Impact:
 Replacing end-of-life radios will provide the county with reliable equipment for the next 7-10 years. Maintenance, programming, and replacement parts/accessories will impact yearly operating costs.

Project's Return on Investment:
 Radio communications equipment is vital for Public Safety operations. Replacing aging radios will provide reliable communications to assist with the Public's need of assistance.

Expected Completion Date:
 Equipment 2015/Lease 2022

Justification:
 In order to perform public safety operations effectively, radios communications must be reliable, secure, and standardized.

Project's Impact on Other Departments:
 With over 40 county-wide agencies and some 3,900 subscribers, all Public Safety entities, not just Horry County, depend on these systems. Law enforcement and public safety agencies need reliable systems that enable communication with their counterparts in other disciplines and jurisdictions.

Toughbook Lease/Purchase	N/A
Project Description:	Justification:
Lease/Purchase of 52 Toughbook Laptops annually Lease payments on 4 year rotating terms	Public Safety quality and quantity of service has improved with the technology being available to field personnel.
Operating Cost Impact:	Project's Impact on Other Departments:
The laptops in the Police Vehicles have a lifespan of approximately 4 years. By replacing 25% of the equipment each year the annual cost is consistent and equipment is reliable.	Information is disseminated to field personnel electronically from E911 to Police.

Project's Return on Investment:
This equipment provides real time CAD information to the responding officers thereby increasing officer safety. Incident reports can be completed in the field therefore decreasing processing time.

Unincorporated Collection System Facility Upgrades and Equipment

Project Description:

Longs and NMB Centers-Expand site, improve drainage, relocate containers and fencing and repave centers. Purchase Knuckle Boom Truck.

Expected Completion Date:

June 2015

Justification:

The Longs and NMB Recycling Centers are small and in need of improvements. The current Knuckle Boom Truck was purchased in 2000 and needs to be replaced.

Operating Cost Impact:

None

Project's Impact on Other Departments:

None

Project's Return on Investment:

Larger Centers will allow for better service for the citizens of Horry County. The new truck will save money on repairs.

DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of resources for and the payment of general long-term debt principal and interest. The main source of revenue is taxes levied against real and personal property. Revenues, expenditures, and fund balances are reported in the Debt Service Fund for annual financial reporting purposes.

The total property tax rate for FY 2015 debt service funds is 5.0 mills allocated as General Debt Service Fund.

OVERVIEW:

The county's population growth exceeded 36% between the 1990 and 2000 U. S. census and by more than 37% between the 2000 and 2010 U. S. census. This unprecedented rapid growth challenges a local government's ability to meet the service demands and needs of its residents. Local governments have two basic choices in financing public facilities: pay-as-you go financing and debt financing. While reliance on either of these two options can be risky to fiscal stability, a carefully analyzed mix of financing options can insure that the county will be able to respond to rapid changes in the economy and in the population.

The county is required by South Carolina law to keep debt within the legal debt limitation of 8% of the assessed value of real and personal property. The following is a computation of the legal debt margin of the county as of June 30, 2013.

Assessed value at June 30, 2012	\$ 2,056,677,000
Legal Debt Limit (8%)	165,155,000
Outstanding Debt Subject to Limit	<u>(95,845,000)</u>
Available Debt Limit	<u>\$ 69,310,000</u>

The fiscal year 2015 budget provides for anticipated debt service and related expenditures in the following funds.

Fund 9 - General Debt Service	\$ 14,184,420
Fund 80- Special Revenue Debt Service	243,075
Fund 89- Ride Plan Debt Service	<u>35,245,500</u>
Total	<u>\$ 49,672,995</u>

Schedules of general obligation debt payments, principal and interest, are included in each fund. Schedules reflecting information such as computation of legal debt margin, ratio of annual debt service expenditures to general expenditures, ratio of net general bonded debt to assessed value and net bonded debt per capita are included in the appendix section of the Budget.

FUND 09 GENERAL DEBT SERVICE FUND**SERVICE STATEMENT:**

The General Debt Service Fund is responsible for the accumulation of sufficient resources to meet the debt payment requirements of the County in compliance with the South Carolina State Constitution, Article X, Section 14 effective December 1, 1977, as amended. This section provides that a local unit cannot at any time have total debt outstanding in an amount that exceeds 8 percent of its assessed property value without benefit of referendum. Excluded from the limitation are: bonded indebtedness levies assessed on properties located in an area receiving special benefits from the taxes collected; and bonded indebtedness existing on December 1, 1977. Payments include principal, interest, and fees obligated by General Obligation Bonds.

AIRPORT ENTERPRISE FUND

The Airport Fund is used to accumulate the revenues and expenses related to the operation of the county's four airports. Operations are financed primarily with fees collected for services, leases, grants, and other airport related services. The revenues, expenses and retained earnings are reported in the Proprietary Fund for annual financial reporting purposes.

Airport Terminology

The following abbreviations are referenced throughout the Airport Enterprise Fund. These are standard abbreviations used in the industry.

1. FBO – Fixed Based Operations
2. CFC – Contract Facility Charges.
3. PFC – Passenger Facility Charges
4. FAA – Federal Aviation Administration.
5. ATCT – Air Traffic Control Tower
6. ARFF – Aircraft Rescue and Firefighting.
7. GA – General Aviation.
8. FIS – Federal Inspection Station.
9. HCDA – Horry County Department of Airports.
10. AIP – Airport Improvement Plan.

HORRY DEPARTMENT OF AIRPORTS**SERVICE STATEMENT:**

The Department of Airports, operating as an Enterprise Fund, is responsible for planning, developing, operating and maintaining four (4) airports under the jurisdiction of Horry County: Conway (HYW), Loris (5J9), Grand Strand (CRE), and the Myrtle Beach International Airport (MYR). The Department is responsible for administering all aeronautical activities as required by the Federal, State, County and local laws, regulations, ordinances and statutes. It is responsible for the positive growth of all aeronautical activities and development of all airports under its jurisdiction in the county. It is responsible for normal and emergency operations, security and maintenance at all Horry County airports. It provides for parking and fueling services for general aviation aircraft at MYR through its FBO, Myrtle Beach Aviation. Fueling and hangar services are provided for at Conway airport through Myrtle Beach Aviation. The Department also provides fueling services to commercial airlines at MYR. It is responsible for the administration of all contracts and agreements entered into by Horry County for use and support of all airport facilities within the Horry County Airport System.

GOALS AND OBJECTIVES:

The Department of Airports celebrated its one-year anniversary of the new terminal building at Myrtle Beach International Airport. The Department objective is to operate an airport system that is efficient yet maximizes both the internal and external customer expectations. In the coming year the Department of Airports will launch several critical construction projects which will allow the airport system to continue operating efficiently and safely. Each scheduled project will be strategically timed to meet projected activity forecasts within the approved budget while maintaining full compliance with all FAA requirements. Further, it is the goal of the Department to complete ongoing and initiate new projects in accordance with the approved master plan for each airport in an effort to continue the development of all airports.

The Department will also continue to take a lead role, along with its partners at the Myrtle Beach Chamber of Commerce and Golf Holiday, to further maintain and improve air service levels at Myrtle Beach International Airport with the goal of “expanding the brand” of Myrtle Beach and the Grand Strand to new, non-stop markets through new carrier attraction efforts as well as fostering new, expanded opportunities with its existing airline partners. It will continue its efforts to develop the section of airport property known as iTAP and to recruit new prospective tenants.

Recognizing the airports position as one of the key economic engines in the Grand Strand region, the Department will:

- work to maintain a reasonable, fair, market based and competitive fee structure for all services provided to its customers and the public, and
- provide a sound financial foundation to support the County’s airport system development needs, and
- work toward an overall goal of making each airport within the airport system financially self-sufficient

AIRPORT CAPITAL PROJECTS:**MYRTLE BEACH INTERNATIONAL AIRPORT (MYR)****MYR – Runway Rehabilitation – Construction**

MYR is a Single-Runway Airport. The Predicted Pavement Condition Index (PCI) for the MYR Runway predicts that the center “Keel” section of the Runway is degrading to a “Poor” condition and will not be rated higher unless rehabilitated

Pavement and conditions research, land surveying, and conceptualls were started in 2012. Final design is 60% complete and will be finished by May 2014. Final Plans, Specifications, Cost Estimates, Contractual Documents and services during Bidding for the Rehabilitation of the MYR’s singular 18-36 Runway, will be concluded by June 2014.

Actual Construction is expected to begin in October 2014 and conclude by March 2015.

At 60% design, the full Runway Rehabilitation Project is estimated to cost \$16,120,000.

Previous Funding and Budget: The current (previous) budget is based on approved project costs from FY13 and FY 14 respectively. In FY13, the FAA share was (\$452,942) less than anticipated and in FY14, the FAA did not award for the anticipated Phase 1 discretionary grant – their share being (\$3,000,942). The previously approved matching funds are being rolled, and the amended FAA FFY14 pre-apps show the true funding requirements of the project.

These FY15 funds are for the Construction and associated costs of the Runway Rehab for \$16,120,000. Funding includes:

Project Cost:	\$ 16,120,000
Previously Budgeted:	<u>\$ 5,034,381 (Design and expected Phase 1)</u>
Project Budget (FY15):	\$ 11,085,619
Funding:	
Previous FAA (FY12 & 13)	(\$ 3,453,884) – Amounts not granted
FAA Discretionary (FY14)	\$ 9,660,942 - Pre-App
FAA AIP Entitlement (FY14)	\$ 3,800,000 – Pre App
HCDA Matching	\$ 1,078,561

AIRPORT CAPITAL PROJECTS:**MYRTLE BEACH INTERNATIONAL AIRPORT (MYR)****MYR – AWOS (Airport Automated Weather Observation System) Relocation**

Horry County and HCDA are marketing the recently developed iTAP Ramp and Taxiway. An original scope of work, removed for budget reasons, was relocation of the AWOS to the interior of the airfield as shown on the Master Plan and updated ALP. The AWOS has a 1000' height restriction radius and has line of sight RF requirements to the Control Tower. So that the equipment does not hinder hangar development, it is to be relocated with FAA's engineering assistance. These FY15 funds are for the reimbursable agreement for engineering with FAA and actual relocation work. This work is being done at MYR's convenience and is not AIP eligible.

Estimated Cost:	\$150,000
Previously Budgeted:	\$ <u>0</u>
Project Budget:	\$150,000
Funding:	
HCDA:	\$150,000

MYR - Fuel Farm Expansion & Rehabilitation

The MYR Fuel Farm has undergone modest rehabilitation in phases, this being the first expansion phase in 9 years. Originally scheduled to begin in FY16, the farm's capacity has become a concern with airlines beginning seasonal flights sooner in season and increasing flights during peak season.

The project will include engineering, added containment area for three (3) 30,000 gallon tanks, valves and piping, and pump station. This year, one (1) 30k gallon tank will be added, increasing current capacity by almost 25%. This project is slated for the end of year if demand requires it. Airport staff is carefully monitoring the demand and capacity. This project is not AIP eligible.

Estimated Cost:	\$700,000
Previously Budgeted:	\$ <u>0</u>
Project Budget:	\$700,000
Funding:	
HCDA:	\$700,000

AIRPORT CAPITAL PROJECTS:**MYRTLE BEACH INTERNATIONAL AIRPORT (MYR)****MYR – Existing Terminal Interior Renovations**

Although the TCEP project was touted as expansion and would eventually include 13 gates, the existing terminal building's interior spaces were not budgeted for upgrades necessary for it to match the newer terminal building, aesthetically, functionally, and sustainably. There were no specific funds set aside for Interior Renovations of the existing terminal building in the original TCEP Budget – only façade improvements and parking renovations were included.

Scope of work will include Concourse B renovations to 5 gate areas, lighting and fire alarm replacement, HVAC upgrades, skylight rehab, restroom renovations, concession area rehab, International Arrivals' gate development with Customs/Immigrations (FIS) passenger circulation and baggage claim. It may also include additional administrative and airport operations spaces that were not included in the new terminal building. This work is not AIP eligible and funding will be added to anticipated surplus TCEP funds for full scope development.

Estimated Cost:	\$2,985,790
Previously Budgeted (TCEP):	<u>\$ 985,790</u>
Project Budget:	\$2,000,000
FY 15 Funding:	
HCDA:	\$2,000,000

MYR – Public Safety 800 MHz Radios / Radio System Upgrades

Pursuant to the planned upgrades to the 800 MHz Radio System and components by Horry County, all radios used by Law Enforcement, Fire, and Security at MYR (vehicle and handheld) will need to be upgraded. The Airport will purchase MotoTurbo units for non-essential personnel and allow for replacements/extras for emergency situations.

Estimated Cost:	\$375,000
Previously Budgeted:	<u>\$ 0</u>
Project Budget:	\$375,000

MYRTLE BEACH INTERNATIONAL AIRPORT (MYR)

AIRPORT CAPITAL PROJECTS:**MYRTLE BEACH INTERNATIONAL AIRPORT (MYR)****MYR –Runway Lighting Replacement & Taxiway B4 Overlay**

This was not included in the original scope for the Runway Rehab project, due to funding constraints. However, during 60% Runway Design review, FAA concurred with the strategy of replacing the runway lighting during RW Rehab construction would create efficiencies in construction during hard runway closures. Additionally since the rehab project now involved added scope to bring the serviceability life from 10 to 20 years, the lighting, which requires constant maintenance, needs replacing to match the serviceability and functional life of the runway and has been included in the scope.

In addition, Taxiway B4, which is perpendicular to RW 18-36 near the new iTAP Ramp was also shown to have a poor Pavement Condition Index (PCI) rating and would not allow the Group IV aircraft taxiing to the iTAP ramp to utilize this taxiway. HCDA determined it to be prudent as part of marketing iTAP to make this taxiway available to the very aircraft iTAP was intended to attract. It also was not in the original scope for the Runway Rehab as approved by FAA.

However, it was agreed to by FAA that both scopes, if funded another way, could realize excellent efficiencies if included in the Runway project bids. It has been estimated by consultants that if done separately from the RW Rehab project they would each cost at least 25-35% more due to airfield general conditions. If included in RW Rehab project bids, the estimated costs (including engineering) are:

- Runway Lighting Replacement - \$1,265,000
- Taxiway B4 Overlay - \$ 230,000

HCDA has committed to “pre-funding” this project scope with FY15 funds and be reimbursed with FFY15 (FY16) AIP Entitlement grant funds. FAA has approved this strategy and are pre-programmed for FFY15. These funds are for the construction and associated costs of the Runway Lighting Replacement and Taxiway B4 Overlay for \$1,934,000.

Estimated Cost:	\$ 1,495,000
Previously Budgeted:	\$ 0
Project Budget:	\$ 1,495,000

Funding:

FAA AIP Entitlement	\$ 1,345,500 (FY15/ FY16 Reimbursement)
HCDA Funds	\$ 149,500 *

* Actual expenditure will be \$149,500 after reimbursement in FY16

AIRPORT CAPITAL PROJECTS:**GRAND STRAND AIRPORT (CRE)****CRE – Ramp Rehabilitation Phase 3 (Final)**

HCDA, using FAA Federal Grant along with SCDOA matching apportionment is rehabilitating the existing Ramp at the Grand Strand Airport (CRE). Phase 1 and 2 (northern half) were completed in early 2014.

This year is the final phase (southern half) of the ramp rehabilitation of the entire CRE Ramp. Construction includes a phased removal of the entire asphalt ramp and replacement of the existing Base (as necessary) and Pavement, with Portland Cement Concrete (PCC).

Along with an FAA discretionary grant for more than \$2.8 million, this project will be paid for with the FAA FFY 2014 entitlement from CRE, a SCDOA project Grant, and a County Match, totaling \$479,033.

Estimated Cost:	\$3,290,316
Previously Budgeted:	\$ 0
Project Budget:	\$3,290,316
Funding:	
FAA Discretionary:	\$2,811,283 (FFY14 Pre-App)

HCDA Matching:	\$ 164,517

CRE – High Mast Ramp Lighting

Lighting Replacement on newly rehabilitated ramp at CRE. Older lighting was not taken care of during former tenant's management of FBO. These funds will go towards replacing the ramp lighting with High Mast efficient lighting. SCDOA (Aeronautics Commission) has offered to share in this cost with 60% of all costs, estimated to be a total of \$100,000

Estimated Cost:	\$100,000
Previously Budgeted:	\$ 0
Project Budget:	\$100,000
Funding:

AIRPORT CAPITAL PROJECTS:**GRAND STRAND AIRPORT (CRE)****CRE – Facilities Structural Repairs**

With taking over of Ramp 66 and Operations at CRE, HCDA has evaluated FBO terminal and hangars and have identified needs for immediate improvements/repairs. These funds are for anticipated airport facility structural repairs at CRE. This amount represents year 2 of 3.

Estimated Cost:	\$710,000 (Hangar Repairs and FBO Improvements)
Previously Budgeted:	<u>\$510,000</u>
Project Budget:	\$200,000
Funding:	
HCDA:	\$200,000

CRE – Fuel Self Service Enhancements

With taking over of Ramp 66 and Operations at CRE, HCDA has evaluated FBO facilities and infrastructure and have identified needs for immediate improvements/repairs. These funds are for anticipated Fuel Farm Self Service enhancements and tie into POS at CRE. This will enable more efficient service to customers and more efficient and better accountability of fuel sales.

Estimated Cost:	\$200,000

HCDA:	\$200,000

CRE/HYW – Runway & Taxiway Crack Sealing (SC Aeronautics 60/40)

In cooperation with the SCDOA, HCDA will be performing much needed crack sealing on runways and taxiways at Grand Strand (CRE) and Conway (HYW) Airports in order to keep pavement conditions at levels that allow continued GA air traffic. SCDOA has offered to share in this cost with 60% of all costs, estimated to be a total of \$90,000.

Estimated Cost:	\$ 90,000
Previously Budgeted:	<u>\$ 0</u>
Project Budget:	\$ 90,000

AIRPORT CAPITAL PROJECTS:**CONWAY AIRPORT (HYW)****HYW – Airfield Drainage Improvements – Design and Phase 1 Construction**

Groundwater and stormwater runoff continues to be a problem at the Conway Horry County Airport and was aggravated by unprecedented rainfall volumes in 2013. This has added seepage impact to the runway and taxiway. HCDA, using FFY14 FAA GA Entitlement Grants for both Conway (HYW) and Loris Twin Cities (5J9) has developed a project scope to be engineered and started in 2014. HCDA met with County Stormwater officials and have developed a preliminary plan to re-route 1/3 of the runoff and increase ditches and swales for increased dry retention. This project will be a multi-year and begin as Phase 1 this year. Total 2 year project is estimated at \$833,333

Estimated Cost:	\$ 833,333
Previously Budgeted:	\$ <u>0</u>

INTERNAL SERVICE FUNDS

The Fleet Maintenance Internal Service Fund began operation July 1, 1993, to account for the revenues and expenses related to the maintenance of all vehicles and heavy equipment owned and operated by Horry County. Operations of this fund are financed with fees collected for services from other county departments. The Fleet Replacement Fund and the Heavy Equipment Replacement Fund account for the replacement of county vehicles including heavy and light equipment.

FLEET MAINTENANCE**DEPARTMENT NUMBER: 473****SERVICE STATEMENT:**

The Fleet Maintenance Department provides major and minor repairs on county automotive and heavy equipment. The department purchases parts that are needed for repairs as well as maintaining purchase orders, work orders and warranty files. Fleet service has established a Preventative Maintenance Program for all vehicles and equipment. This program helps extend vehicle life and lowers major repair costs. With all county vehicles placed under Fleet Service, the implementation of this program allows Fleet Service to control when vehicles will be brought to the shop for service and repairs. This increases shop efficiency and shortens vehicle down time. Fleet Maintenance is committed to meet the goals outlined in the strategic plan.

GOALS AND OBJECTIVES:

Division Goal: Provide Horry County with a cost effective and efficient vehicle maintenance and replacement program.

Department Objectives:

- a. Continually research and evaluate alternative approaches and products to improve productivity, reduce down time, increase the life of equipment/vehicles, and ultimately to reduce costs.
- b. Continually utilize "Due Diligence" measures to ensure we are getting the best price possible.

Division Goal: Develop SOP's that comply with and which are consistent with Horry County Financial and Procurement Policies.

Department Objectives:

- a. Continue to develop departmental SOP's.
- b. Continue to utilize Procurement Policy and Directives which includes requirements for creating requisitions and obtaining quotes.
- c. Continue to ensure payables are delivered in a reasonable amount of time.
- d. Continue to work with Finance and Procurement staff with regard to Vehicle purchases, transfers, and sales.

Division Goal: Provide superior customer service.

Department Objectives:

- a. Train office personnel on phone functions and uses, and proper telephone etiquette.

SOLID WASTE AUTHORITY

The Solid Waste Authority Fund began operation July 1, 1992, to accumulate the revenues and expenses related to disposal of solid waste and recyclable materials. Operations of this department are financed primarily with tipping fees collected for disposal of solid waste. The revenues, expenses and retained earnings are reported as a component unit for annual financial reporting purposes.

SOLID WASTE AUTHORITY**SERVICE STATEMENT:**

Horry County Solid Waste Authority is responsible for operating sanitary landfills for MSW and C&D materials, along with a resource recovery/recycling system that are environmentally safe and in accordance with state and federal regulations; thereby providing residential, commercial, industrial and institutional waste haulers with a place to dispose of solid waste. The Authority is also responsible for providing comprehensive, cost effective integrated solid waste management utilizing environmentally sound methods and technology and educating the public on responsible waste management.

GOALS AND OBJECTIVES:

The primary goal of the Solid Waste Authority is to provide comprehensive solid waste management programs which maximize protection of the environment and efficiently utilize the disposal system. We will accomplish this goal by encouraging development of yard waste reduction and collection programs in order to divert this waste from landfills; by aggressively pursuing markets for the sale of recycled materials; by developing construction and demolition waste processing programs to avoid landfilling; by developing and maintaining programs to prevent the unauthorized disposal of hazardous waste; and by investigating incentives, including alternative rate structures, to encourage recycling. Other goals of the Authority are to provide educational programs to the public on responsible waste management with an emphasis on source reduction, reuse, recycling, and environmental awareness; to develop and maintain an administrative staff which fully supports the missions, goals, and objectives of the Board of Directors; to maintain active liaison and communications with industry, federal, state, and local officials concerned with solid waste management; to provide attractive and well-maintained facilities and equipment in order to provide waste disposal services promptly to users, to enhance the image of waste management in the service area, and to instill pride in HCSWA; and to continue to employ, train, and retain a highly competent work force consistent with sound personnel practices and laws.

Funding will not be provided until such Agreement is entered into, and then only when its terms and conditions are complied with. Approval of the Agreement, and all future disbursements thereunder, will be by way of resolution of County Council.

SECTION 14. Authorizes the use of \$3,209,913 of 1% Hospitality Fund revenue in the General Fund for the purpose of funding portions of Public Safety costs related to tourism.

SECTION 15. Authorizes the County Administrator to make emergency adjustments to the Department of Airports budget as necessary to meet any required security or safety mandates issued by the Federal Government. The Administrator's authority to make such budget adjustments shall be limited to an aggregate amount not to exceed one million dollars. The Department of Airports' Financial Consultants, prior to any action by the Administrator, must approve all such budget adjustments. The Administrator shall advise Horry County Council of all necessary adjustments made pursuant to this section at the next regularly scheduled Council meeting.

SECTION 16. Equipment Leasing The County Administrator is authorized to negotiate and execute one or more lease agreements for the leasing of all or any of the items of equipment approved by County Council in the Expenditure budget for Fiscal Year 2015 by means of lease-purchase financing through a bank, vendor or otherwise. The effective interest rate payable in respect of any such financing shall not exceed 7% per annum. Such financings shall include a non-appropriation clause allowing the County to cancel such financing by failing to appropriate funds to pay such financing in future fiscal years. Such financing shall not pledge the full faith or credit or the taxing power of the County nor shall such financing constitute a pecuniary liability or an indebtedness of the County within the meaning of any statutory or constitutional restriction.

SECTION 17. Tax Anticipation Notes: In the event the County, anticipating ad valorem tax revenues or license fees, as yet uncollected, has inadequate funds for operational expenditures then needing to be made, and the County Administrator having determined that it is necessary to borrow monies for the purpose of meeting such expenses by issuing a note to be repaid from said anticipated revenues, and that it is advisable to issue and sell a tax anticipation note on behalf of the County, the Administrator is hereby authorized to issue and sell such tax anticipation note, by way of appropriate competitive procurement process, to mature not later than ninety days from the date on which such taxes or license fees may be paid without penalty, the specifics of such issuance and sale to be approved by way of Resolution of County Council.

SECTION 18. In accordance with Section 2-70.12 (Asset Capitalization Policy) of the Horry County Finance Policy, the dollar value at which assets shall be required to be capitalized for Fiscal Year 2015 is \$5,000.

SECTION 19. The County Administrator is instructed to continue a \$100 per month cap as the maximum amount Horry County will pay on behalf of county employees for the portion of employee-only insurance coverage in the State Health Insurance Plan for health insurance. This portion is normally listed as the employee portion for employee-only insurance and currently is approximately \$98 monthly on the standard plan.

SECTION 20. For Fiscal Year 2015 the cap on employee insurance premiums (deductions) will remain 12% and shall continue to be applicable to only the savings and standard plans available under the State Health Insurance program. There is no cap on deductions under any other plan.

SECTION 21. The pay per call for volunteer firefighters shall be fifteen dollars (\$15) per call.

SECTION 22. If for any reason any sentence, clause or provision of this Ordinance shall be amended, such shall require a seventy-five percent (75%) vote of Council.

SECTION 23. If for any reason any sentence, clause or provision of this Ordinance shall be declared invalid, such shall not affect the remaining provisions thereof.

SECTION 24. This Ordinance shall become effective July 1, 2014.

AND IT IS SO ORDAINED, ENACTED AND ORDERED

Dated this 17th day of June, 2014

Total amount of debt applicable to debt margin		\$	<u>95,845</u>
Available Debt limit		\$	<u>69,310</u>

Debt Limit:

The county's borrowing power is restricted by Article X, Section 14, as amended, of the State Constitution effective December 1, 1977. This section provides that a local unit cannot, at any time, have total debt outstanding in an amount that exceeds 8 percent of its assessed property value. Excluded from the limitation are: bonded indebtedness approved by the voters and issued within five years of the date of such referendum; special bonded indebtedness; levies assessed on properties located in an area receiving special benefits from the taxes collected; and, bonded indebtedness existing on December 1, 1977, the effective date of amendment of Article X of the Constitution of South Carolina pertaining to bonded debt. The assessed value used above is the tax base as of June 30, 2012. The total amount of debt applicable to the Debt Limit includes those general obligation bonds accounted for in the Enterprise fund issued after December 1, 1977 and still outstanding June 30, 2013.

GLOSSARY

1. **Accommodations Tax** - 2% tax levied on all hotel & motel rooms to be used for promotion of tourism in South Carolina.
2. **Accrual Accounting** - An accounting basis where revenue and expenses are recorded in the period in which they are earned or incurred regardless of whether cash is received or disbursed in that period.
3. **Ad Valorem Taxes** - Commonly referred to as property taxes, are levied on both real and personal property according to the property's valuation and the tax rate.
4. **Appropriation** - A legal authorization to incur obligations and to make expenditures for specific purposes.
5. **Assessed Valuation** - A valuation set upon real or other property by a government as a basis for levying taxes.
6. **Balanced Budget** - A balanced budget occurs when the total sum of money a government receives and/or appropriates from Fund Balance is equal to the amount it spends on goods, services and debt.
7. **Basis of Accounting** - Refers to when revenues, expenditures, expenses, and transfers are recognized in the accounts and reported in the financial statements.
8. **Basis of Budgeting** - Refers to the method used for recognizing revenue and expenditures in the budget process.
9. **Bond** - A debt instrument for a period of more than one year with the purpose of raising capital by borrowing.
10. **Bond Refinancing** - The payoff and reissuance of bonds, to obtain better interest rates and/or bond conditions.
11. **Budget** - The planning document for each County department and agencies; providing management control over expenditures in general fund, special revenue fund, debt service fund and capital projects fund.
12. **Budgetary Control** - The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.
13. **Budgeted Fund Balance** - Money appropriated from previous years fund balance.

14. **Capital Expenditures**— All expenditures made to acquire or improve capital assets greater than \$5,000. Acquisition includes the design, development, construction or purchase of capital assets. Also included are capital leases or rental agreements (e.g. that transfer the rights and obligations of ownership to the County). Improvements include any alterations or renovations that significantly increase the performance, value or capability of a capital asset or extend its useful life by more than a year. For purposes of Long-term Capital Plan policy, capital expenditures refer expenditures greater than \$100,000 per improvement or addition.
 15. **Capital Improvements Plan** - A plan of proposed capital expenditures and the means of financing them. Items in the capital budget are usually construction projects designed to improve the value of the government assets. The capital budget is usually enacted as part of the complete annual budget which includes both operating and capital outlays.
 16. **Capital Projects Fund** - Fund used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the enterprise and fiduciary fund).
 17. **Capital Outlay** - Fixed assets which have a value of \$500 or more and have a useful economic life of more than one year.
 18. **Cash Management** - The management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest revenue. Cash management refers to the activities of forecasting the inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships, and investing funds in order to achieve the highest interest and return available for temporary cash balances without jeopardizing principal.
 19. **Compensation Classification Plan** - Plan to assign a grade level and a salary range for each position.
 20. **Computer Aided Dispatch (CAD)** - a method of dispatching emergency services assisted by computer. It can either be used to send messages to the dispatchee via a mobile data terminal (MDT) and/or used to store and retrieve data.
 21. **Contingency** - Amount of money set aside for emergency situations during year.
 22. **Contractual Services** - Services rendered by private firms, individuals, or other governmental agencies. Examples include utilities, rent, and maintenance agreements.
 23. **Cost-of-living Adjustment (COLA)** - An increase in salaries to offset the adverse effect of inflation on compensation.
-

- 24. **Debt Limit** - The maximum amount of general obligation debt which is legally permitted. The State of South Carolina mandates that incurred debt is not to exceed 8% of the assessed value of all County taxable property.
- 25. **Debt Service** - Expenditures for repayment of bonds, notes, leases and other debt.
- 26. **Deficit** - an excess of expenditures over revenues during a certain period of time.
- 27. **Department** - A major administrative division of the County which indicates overall management responsibility for an operation or a group of related operations within a functional area.
- 28. **Depreciation** - The process of estimating and recording the lost usefulness, expired useful life or diminution of service from a fixed asset that cannot or will not be restored by repair and will be replaced. The cost to reserve funds necessary to replace the item at the end of its useful life.
- 29. **Encumbrance** - The commitment of budgeted funds to purchase an item or service. To encumber funds means to set aside or commit funds for a future expenditure.
- 30. **Enterprise Funds** - Used to account for operations (a) that are financed and operated in a manner similar to private business enterprises—where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be finance or recovered primarily through user charges; (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.
- 31. **Expenditure** - Decreases in net financial resources. Expenditures include current operating expenses requiring the present or future use of net current assets, debt service, capital outlay, intergovernmental grants, entitlements and shared revenue.
- 32. **Fiscal Policy** - A government's policies with respect to revenues, spending and debt management as these relate to government services, programs and capital investment.
- 33. **Fiscal Year (FY)** - Horry County begins and ends its fiscal year July 1 - June 30.
- 34. **Fixed Assets** - Assets of long-term character that are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

35. **Function** - A group of related activities aimed at accomplishing a major service or program.
36. **Fund** - An accounting entity that has a set of self-balancing accounts that records all financial transactions for specific activities or government functions. Eight commonly used funds in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, internal service funds, and special assessment funds.
37. **Fund Balance** - The excess of assets over liabilities.
Fund balance will be displayed in the following classifications depicting the relative strength of the spending constraints placed on the purposes for which resources can be used:
- *Nonspendable fund balance*—amounts that are not in a spendable form (such as inventory) or are required to be maintained intact.
 - *Restricted fund balance*—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
 - *Committed fund balance*—amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.
 - *Assigned fund balance*—amounts a government *intends* to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority .
 - *Unassigned fund balance*—amounts that are available for any purpose; these amounts are reported only in the general fund.
38. **GASB 54** - One of the provisions within GASB 54 affects the revenue criteria that must be met in order for a fund to be presented as a Special Revenue Fund. Primarily, in order to report a fund as a special revenue fund, the majority of the sources of funding within the fund must be from revenues. Horry County previously recorded Accommodations Tax and Hospitality Fees in separate special revenue funds, then recorded transfers out to the funds where it was budgeted to be spent. This resulted in the funds receiving the transfers in not qualifying as special revenue funds. Through implementation of GASB 54, we have streamlined our budget by budgeting the Accommodations Tax and Hospitality Fees as revenue in the funds where the revenue is budgeted to be spent.
39. **General Fund** - Fund used to account for all financial resources except those required to be accounted for in other funds.
40. **General Obligation Bonds** - Bonds issued to finance major projects with resources from tax collection to repay debt. This type of bond is backed by the full faith, credit and taxing power of the government.
-

-
41. **Generally Accepted Accounting Principles (GAAP)** - Uniform minimum standards for financial accounting and recording, encompassing the conventions, rules and procedures that define accepted accounting principles.
 42. **Goal** - A statement of broad direction, purpose or intent based on the needs of the community. A goal is general and timeless.
 43. **Government Accounting Standards Board-GASB--** An organization whose main purpose is to improve and create accounting reporting standards or generally accepted accounting principles (GAAP). These standards make it easier for users to understand and use the financial records of both state and local governments.
 44. **Governmental Fund Types** - Funds used to account for “government-type activities” such as services largely funded through non-exchange revenues (taxes are the most common example). Governmental Fund Types include General Fund, Special Revenue Funds, Capital Project Funds, and Debt Services Funds.
 45. **Grants** - Contributions or gifts of cash or other assets from another government to be used or expended for a specific purpose activity or facility.
 46. **Green Box** - Trash compactors used for county residents to dump garbage. Garbage collection is only done for city residents, any residents outside city limits have to hire private collectors or do their own dumping.
 47. **Intergovernmental Revenues** - Revenues received from other governments in the form of grants, entitlements, shared revenues, or payments in lieu of taxes
 48. **Internal Service Fees** - The fees charged to user departments for internal services provided by another government department, such as fleet maintenance or data processing.
 49. **Internal Service Funds** - Internal service funds finance and account for the operations of departments that provide services to other internal department on a cost-reimbursed basis.
 50. **Levy** - To impose taxes, special assessments or service charges for the support of government activities.
 51. **Long-term Debt** - Debt with a maturity of more than one year after the date of Issuance.
 52. **Materials and Supplies** - Expendable materials and operating supplies necessary to conduct departmental operations.
 53. **Mill** - One, One Thousandth of a dollar of assessed value.
-

- 54. **Millage** - Rate used in calculating taxes based upon the value of property, expressed in mills per dollar of property value.
- 55. **Modified Accrual Basis** - The accrual basis of accounting adapted to the governmental fund-type measurement focus. Under it, revenues and other financial resource increments (e.g., bond issue proceeds) are recognized when they become susceptible to accrual, that is when they become both "measurable" and "available to finance expenditures of the current period." "Available" means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized when the fund liability is incurred except for (1) inventories of materials and supplies that may be considered expenditures either when purchased or when used, and (2) prepaid insurance and similar items that may be considered expenditures either when paid for or when consumed. All governmental funds, expendable trust funds and agency funds are accounted for using the modified accrual basis of accounting.
- 56. **Objective** - Something to be accomplished in specific, well-defined, and measurable terms and that is achievable within a specific time frame.
- 57. **Operating Expenses** - The cost for personnel, materials and equipment required for a department to function.
- 58. **Operating Revenue** - Funds that the government receives as income to pay for ongoing operations.
- 59. **Ordinance** - A formal legislative enactment by the governing body of a County. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the County to which it applies. The difference between an ordinance and a resolution is that the latter requires less legal formality and has a lower legal status. Ordinarily, the statutes or charter will specify or imply those legislative actions that must be by ordinance and those that may be by resolution. Revenue-raising measures, such as the imposition of taxes, special assessments and service charges, universally require ordinances.
- 60. **Pay-as-you-go Basis** - A term used to describe a financial policy by which capital outlays are financed from current revenues rather than through borrowing.
- 61. **Performance Measure** - A quantitative or qualitative characterization of performance.
- 62. **Personal Services** - Expenditures for personnel cost, salaries, fringe benefits, etc.
- 63. **Prison Rape Elimination Act (PREA)** - passed in 2003 with unanimous support from both parties in Congress. The purpose of the act was to "provide for the analysis of the incidence and effects of prison rape in Federal, State and local institutions and to provide information, resources, recommendations and funding to protect individuals from

-
63. **Prison Rape Elimination Act (PREA) (continued)**- prison rape.” The act also created the National Prison Rape Elimination Commission and charged it with the developing draft standards for the elimination of prison rape. Those standards were published in 2009 and became effective in 2012.
64. **Project 25 (P25)** - the standard for the design and manufacture of interoperable digital two-way wireless communications products. P25 protocols programmed into radios allow radios manufactured by different vendors to talk to one another. P25 also allows interoperability with other counties, agencies, and states.
65. **Property Tax** - Tax levied on the assessed value of real property.
66. **Proprietary Fund** - The propriety funds are different in purpose from the government funds and designed to be like business financial reporting. Since they are like business accounting, records are kept on activities regardless of the duration of the activity. The idea is to determine if the fund is breaking even considering all activities by using accrual accounting. Proprietary funds consist of two subtypes—internal service funds and enterprise funds.
67. **Revenue** - (1) Increases in the net current assets of a governmental fund type from other than expenditure refunds and residual equity transfers. Also, general long-term debt proceeds and operating transfers in are classified as "other financing sources" rather than as revenues (2) Increases in the net total assets of a proprietary fund type from other than expense refunds, capital contributions and residual equity transfers. Also, operating transfers in are classified separately from revenues.
68. **Special Revenue Funds** - Funds used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally or donor restricted to expenditures for specified purposes.
69. **Supplements** - Non-profit organizations that request funds from the County to aid in their operations.
70. **Taxes** - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges. (e.g., sewer service charges).
71. **Watershed** - Ditches constructed to drain water from properties to avoid flooding.
72. **Workload Indicator** - A unit of work to be done. Examples are number of permits, number of cases solved, or number of EMS responses.

CIP Review Process	450

INTRODUCTION TO THE CAPITAL IMPROVEMENT PROGRAM (CIP) OF HORRY COUNTY

Horry County's CIP involves the development of a five-year plan for capital expenditures. Yearly, each department evaluates its short term and long term needs, and determines which projects, if any, can be considered Capital Improvement items. Some departments may never have a capital project, while other departments have numerous capital projects. These items are submitted in the form of departmental requests. Capital expenditures may include such items as the construction of a new library, as well as expansion or renovation of buildings, land acquisition, and infrastructure.

The CIP will provide both Horry County Government and the public with valuable information on each capital project, such as the scope (i.e., size, capacity, etc.); the fiscal year in which the project will be undertaken and/or completed; the total amount of funding allocated for each project; the programmed amount to be expended each year, and the planned method of funding. The CIP will also provide policies and guidelines, current Bond Rating, Debt Affordability through debt projections, and current revenue information on an annual basis.

The selection of projects, from among those requested to receive CIP funding, is based on several criteria. First, the project must be consistent with the most recently adopted Comprehensive Plan and is presented annually to the Planning Commission for approval. Second, the project must meet the most recently adopted CIP policy guidelines. Finally, there must be sufficient funds available to support the project. Review of the CIP occurs through several venues including the County Planning Commission and public hearings for citizen input. The final decision for the CIP rests with the County Council. Workshops and public hearings are held to provide County citizenry a forum to participate in the CIP process.

Coordinated Effort in the Capital Planning Process

It is the responsibility of the Budget, Planning, and Finance Departments to develop a Staff Recommended CIP document. The Budget Department supplies various revenue data throughout the year, and is responsible for providing revenue projections used in the formulation of the CIP. The Budget Department, in conjunction with the Finance Department, tracks all previously approved CIP projects, and monitors the progress of all projects, including status of each project's remaining funds. The Planning Department provides the current and projected countywide demographic information and development information necessary for CIP formulation. The Planning Department staff also evaluates all of the requested CIP projects for consistency with the Comprehensive Plan and coordinates their timing with other agency requests and countywide development activities. The Finance Department is responsible for the actual distribution of funds and recording of expenditures to each project throughout the year. In addition, the Finance Department provides valuable information on different funding sources and the debt projections, which is essential for calculating precisely how much debt the County can afford over the five-year CIP.

Future Growth and Its Impact

The CIP not only focuses on existing public major assets (parks, infrastructure, other buildings, etc.), but also considers the pressures of anticipated growth and provides a plan for satisfying expanding demands for public services. The continued significant rate of growth in Horry County has caused a major strain on public resources. As a result of growth, attempting to strike a balance between the purchase of new assets to respond to community needs, and the maintenance and renovation of existing assets, presents many challenges.

Increasing Resident Population

Horry County growth increased dramatically in the 1970's and has continued to increase since that time. In 1970, the countywide population was 69,992. By 1980, there were 101,419 persons living in Horry County, increasing the population by 31,427 people over this ten-year period. The decennial census of 1990 was 144,053, a population increase of 42,634 persons over 1980. The decennial census of 2000 placed the population of Horry County at 196,629 persons, an increase of 52,576 persons. The most recent decennial census of 2010 reports a population of 269,291, a population increase of 72,662 from 2000. In total over the forty-year period from 1970 to 2010 an additional 199,299 persons have chosen to reside in Horry County. The reported estimated population in 2013 was 289,650 an estimated 8% growth in just three (3) years. With this pace of growth comes a corresponding increased need in public services.

Projected Resident Population The South Carolina Budget and Control Board (SCBCB) calculates population projections based on continuation of births, deaths, migration trends, and group quarters population collected by the SC Department of Revenue and Fiscal Affairs. For Horry County, the SCBCB has projected a population of 294,600 persons in 2015, 319,900 persons in 2020, 345,800 persons by the year 2025 and 371,700 by 2030. If these projections hold Horry County will experience a 20% increase in resident population by the next Census in 2020.

Population and Housing Along with population growth, of course, comes housing growth. Unlike most counties in South Carolina, Horry County has a significant number of second home, or vacation properties. In 1970, there were approximately 29,109 housing units throughout Horry County. In 1990, that number grew to 89,960 units, and in 2000 the County experienced a jump to 122,103 housing units. From 2000 to 2010, housing units increased by 52.3% for a total of 185,992. One impact of population and housing growth is a disproportionate increase in the cost of providing public services when compared to a slower increase in revenue from taxes, permits, and other fees. This imbalance has created a dependency upon future growth (i.e., revenues generated from growth) to pay for past and current expenditures incurred for the increased level of public services provided. With the recent changes in the economic climate, this has created increased challenges and competition for the use of available revenue.

Revenue Sources

Funding for the Capital Improvement Program comes from several sources: General, Fire, Road, Stormwater Funds (primarily property taxes and fees), donations, solid waste host fees, bonds, lease purchase financing, E911, Sunday Liquor Permits, Waste Management Recycling, various state & federal grants, and through the accumulation of fund balance from favorable variances in closed projects.

The County provides for capital improvements in a variety of ways including Internal Service Funds and dedicated millage. Light vehicle and heavy equipment replacements are being funded through a vehicle/equipment replacement charge in the General, Recreation, Stormwater and Road Funds, to the applicable Internal Service Funds. Additionally, in FY2014 County Council approved a new millage of 1.7 mills to fund a Fire Apparatus Replacement Fund. Therefore, funding for most replacement vehicles, heavy equipment, and fire apparatus are not included in these pie charts.

Adopted CIP Policies require the County to attempt to budget as pay-as-you-go for capital improvements an amount equal to 3% of General Fund operating revenues. For FY 2015, the approved General Fund budget for operating revenues is \$123,189,043, so according to the policy, at least \$3,695,671 should go towards capital improvements. For FY 2015, \$2,414,828 is budgeted to be transferred to the Capital Projects Fund from the General Fund. Additional pay-as-you go funding for capital items are included in the budget through the funding of dedicated tax millage for fire apparatus and Internal Service Funds from various departments within the General Fund for the replacement of vehicles and heavy equipment. This funding, in addition to the transfer from the General Fund to the Capital Projects Fund, keeps the County in compliance with this pay-as-you-go policy provision.

CIP REVENUES PLANNED FOR FY 2015 – FY 2019

In addition to the previously identified revenue sources, a significant resource (as an alternative to raising taxes) available to the County to produce revenue in the Capital Projects Fund is the issuance of General Obligation Bonds. This source of funding is generally used for capital expenditures that have a long-term useful life and thus the use of the future funds to pay for them is appropriate.

GENERAL OBLIGATION DEBT

The authority for the issuance of General Obligation Bonds rests with the County Council. Approval must be received prior to the issuance of the bonds. In order to establish a safe level of debt, the State of South Carolina has established a limitation on the amount of General Obligation Debt that can be outstanding at any point in time. This limit assists in the establishment of sound fiscal management policies for the County, and helps to ensure the maintenance, or possible improvement, of the County's credit rating. In October 2011, the County's bond rating was reviewed by Moody's Investors Service, Inc., resulting in an Aa2 rating. Last year Fitch affirmed the County's rating of AA+ stable and most recently in August of 2014 Standard and Poor's affirmed the County's rating of AA.

The following chart indicates that the new debt planned to be issued in this five year plan could be repaid with the existing debt service millage, based on the revenue growth assumptions as stated below. See **Note 1** regarding the projected ending cash balance for FY 2017-2023. The following chart shows the projected impact on the General Debt Service Fund from debt planned to be issued for general government purposes.

* Required Cash Balance, according to the Horry County financial policy, is 50% of the annual debt service payment									
ASSUMPTIONS: Estimates for property tax revenue are projected based on current 5.0 mills and a 1% growth in FY 2015 . For FY 2016 and beyond, Tax Revenues are projected based on a 2% growth each year. Interest Income, beginning in FY 2015, is calculated assuming .5% earnings on the beginning of the year projected cash balance (July 1). Debt service for outstanding debt is based on the actual amortization schedules currently in place. Debt service for \$24,100,000 potential new debt in FY2019 is assumed to be repaid over 15 years at a true interest cost of 4.00%. Changes to the draft CIP, as discussed at the Budget Retreat, may impact this potential new debt amount. NOTE: The above table includes debt to be repaid by the General Debt Service Millage for General Government Bonds. Bonds issued for fire related capital improvements are repaid by tax revenue recorded in the Fire Fund.									

Note 1:
Assumptions used in this projection result in the projected cash balance at the end of FY 2017- FY2023 being below the County's financial policy of having 50% of the subsequent year's debt service on hand. The County Council will address this issue in future years.

TECHNOLOGY PROJECTS

The County is making every effort to keep up with technological change. Toward that end, the five-year CIP includes the following significant technology projects.

Financial System: Implementation of an Enterprise Resource Planning (ERP) system, which will replace the current legacy system used for all financial applications, including general ledger, procurement, cash receipts, cash disbursements, inventory, tax billing, payroll, as well as Fleet Management, Parks & Recreation, Airport, and a Human Resources Management System.

Virtual Desktops: FY 2016 & FY 2017 have funding for a transition from traditional desktop computers to virtual computers.

Security Enhancements: Annual funding has been added to the CIP to address security enhancements as related to technology. FY 2015 includes funding for CJIS (Criminal Justice Information System) security upgrades that are critical to our operations.

Toughbook Laptops: Annual funding for the County's 4 year replacement cycle schedule for its toughbook laptop computers used in public safety. The county budgets annually for the lease/purchase of and payments for 52 computers.

E-911 System: Annual funding has been added to the CIP to address Emergency 911 system upgrades. FY 2015 includes funding for an E-911 uninterruptible power supply.

Public Safety P-25 Compliant: This project includes the equipment and infrastructure investment needed to upgrade from the County's 800 MHz Trunked Radio System. The County's current system is over 20 years old and needs to be replaced to be compliance with the current standards for 800MHz. This project also includes MOTOTURBO Digital Radio replacements for the Infrastructure & Regulation division as well as new Mobile Video equipment for Public Safety.

Public Safety Technology Improvements: PSA Suite Upgrade is in its third year of a 5-year project to upgrade the CAD system, law enforcement records, interface to court records and solicitor records, mobile data, jail records, and Fire/Ems.

Public Safety Phase II Fiber Loop: (project completed and final lease payment due in FY 2015)

This project consists of connecting the fiber network between North Myrtle Beach and Myrtle Beach respectively. This connected fiber path provides redundancy and survivability, and provides for a high level of availability for the critical public safety software applications utilizing the network.

Aerial Photography: New to the CIP is a recurring funding source from the General and Stormwater Funds and the continuation of this biennial flight is planned to keep the County's Geographic Information System (GIS) current. With growth in the County, and the integration of the GIS with the emergency response system, it is critical that the GIS system reflect current changes resulting from new construction and land development. In addition, the Assessor's office has funding in place every three years for oblique aerial photography.

ECONOMIC DEVELOPMENT PROJECTS

The County continues to pursue a number of economic development projects to assist with attracting new businesses and new jobs to the County. The County has been involved in these activities for a number of years through two Industrial Parks: The Atlantic Center Industrial Park and the Cool Spring Business Park. The County's newest park, referred to as ITAP (International Technology & Aerospace Park) is 467 acres located adjacent to the County-owned Myrtle Beach International Airport. The funding for the infrastructure for this park was provided from several external sources, including funding from the Myrtle Beach Air Force Base Tax Incremental Financing District. In January 2014, the County completed an up-fit of a County-owned speculative building previously built in the Cool Spring Business Park to meet the needs of a rifle manufacturing company relocating to Horry County. In FY 2016, the County, as a joint venture with Grand Strand Water & Sewer Authority, Santee Cooper, and the Myrtle Beach Regional Economic Development Corporation is planning an access road improvement for the new industrial marine park located near the existing Bucksport Marina.

RECREATION PROJECTS

The County's commitment to its Parks and Recreation programs and facilities are addressed in the Capital Improvements Plan. Over the next 5 years the County plans to make various improvements to Michael Morris Graham park, Poplar Park, Loris Outdoor Park, 10 Oakes Park, Carolina Forest Park, and Vereen Gardens.

SOLID WASTE MANAGEMENT

Horry County is committed to providing for solid waste collection facilities in its unincorporated areas. The CIP plan has funding budgeting for FY 2015 for facility upgrades at the Longs Center and North Myrtle Beach Center. FY 2016 – FY 2019 have place marked \$1,000,000 annually for new facility land acquisition and construction or relocation. Carolina Forest/Postal Way and McDowell Shortcut have already been identified as projects.

NEW CONSTRUCTION, BUILDING IMPROVEMENTS and LAND ACQUISITION

Fire/EMS Station Upgrades: FY 2015 addresses the need to maintain our Fire/EMS facilities with funding dedicated to replace several pads at our Fire/EMS stations.

Public Safety Training Facility: The intent of this project is to develop a multi-agency public safety training facility. Horry County currently owns approximately 35 acres designated for this purpose, and we need to acquire additional property adjacent to this to accomplish our goals. The objective is to develop a facility that allows for a weapons firing range, fire suppression training, water rescue training, emergency vehicle operations training, and classroom instruction. This facility would serve the County Police Department, Horry County Fire/Rescue and the County Sheriff's Office. The Capital Improvement Plan addresses land acquisition, firing range construction, fire training props, and training building in FY 2016, FY 2017, and FY 2019.

NEW CONSTRUCTION, BUILDING IMPROVEMENTS and LAND ACQUISITION (continued)

Critical Services Facility: A spatial needs analysis has been completed to determine what is needed to locate the critical services of Emergency Management including the Emergency Operations Center, E-911, and IT/GIS into one critical services facility. The facility would also serve as a disaster relief supplies storage warehouse. To support these emergency management operations agencies, the facility is planned to include complete back-up capabilities for the critical infrastructure systems including redundant emergency electrical power generation, a potable water supply, a temporary sanitary holding tank, and back-up communications tower transmission capabilities. The main facility is planned to require 60,513 gross square feet. The warehouse structure is planned to require 15,000 square feet. The Capital Improvement Plan includes a budget of \$25,000,000 in FY 2019.

Police Precinct Facilities: Additional police precinct locations are planned for construction in FY 2019. Currently identified as the 5th Precinct and West Precinct.

Central Coast Government Complex and Library: A Committee comprised of certain County Council members, the County's Library Director, certain Myrtle Beach City Council members and Myrtle Beach City staff has been formed to consider locations for a possible consolidation of county offices with the Health Department and a County operated library. We are in the preliminary planning stages and no recommendations have been formalized regarding this project as of August 2014. The Capital Improvements Plan includes a budget of \$1,000,000 in FY 2017 as partial funding for the expansion/improvement to County facilities located in the City of Myrtle Beach. Further efforts are needed before this project can be more clearly described.

Building Improvements/Maintenance: Annual funding has been added to the CIP to address Lifecycle Maintenance needs of the County's buildings and facilities. Additionally, we are in the process of completing an energy performance contract, guaranteed utility savings are being used to fund the lease financing for the project.

ROADS

County Projects: - Like most County departments, the County's Engineering Department has seen a dramatic increase in level of need for its services over the past years. The increased growth has caused an acceleration of the wear and breakdown of roads as well as the need to pave roads. Currently, the County is responsible for the maintenance of more than 647 miles of unpaved roads, and 795 miles of paved roads. With normal use, a paved surface should last up to 10 to 12 years, or even longer if the use is less than normal. The County's CIP addresses both dirt road paving (3.85 miles) and new construction paving (7 miles) per year. In addition FY 2017 has earmarked \$6,000,000 for an access road at Bucksport Marine Park.

Connector Roads Program: – County Council, understanding the need to begin addressing road connector/capacity/safety improvements within the County, tasked staff to develop a list of unimproved connector roads. Following staff's presentation and recommendations at the 2006 budget retreat, County Council approved the below priority list of projects and allocated funding to begin the process of making the needed improvements to six of the eleven projects on the priority list. No new funding has been generated for this program due to revenue shortfalls associated with the economic downturn. However external funding sources have come forward to address some of these.

1. Postal Way (1.40 miles) - completed at a cost of \$2,026,728.	7. Hwy 501-90 connector road through Atlantic Center (0.65) - completed by HC Schools and CCU (E.Cox Ferry Rd to University Blvd Ext.).
2. River Oaks Blvd. (5.10 miles) - 2 phases completed at a cost of \$2,009,884.	8. Scipio Lane (1.80 miles) -.02 miles completed to South Strand Complex.
3. Carolina Forest Boulevard (5.70 mi) - Phase 1 completed at a cost of \$1,897,500 Phase 2- Intersection improvements under construction with late 2014 completion date planned.	9. Tournament Blvd. (1.50 miles) Turn lanes installed at several intersections in 2008 by Horry County
4. Hwy. 17 Frontage Rd @ Indigo Creek (0.24mi) - completed at a cost of \$115,124	10. Hwy. 707 to Hwy. 17 and Hwy. 17 to Farrow Blvd. within the old Air Base (4.50 mi) - completed by the City of Myrtle Beach and developer
5. Glenss Bay Rd widening & interchge (0.43 mi) - funded by RIDE II	
6. International Drive (4.70 miles) - funded by RIDE II	11. Fries Bay Road (3.40 miles) - 1.86 miles completed with Road Plan and CTC funds; additional .83 miles to be completed in 2014 or early 2015.

ROADS (continued)

Capital Projects Sales Tax Funding for Roads: - On November 7, 2006, County voters, by a 61.4 to 38.6 percent margin, supported a One-Cent Capital Projects Sales Tax for roads. This tax went into effect on May 1, 2007, and increased the level of sales tax in Horry County an additional penny on all retail sales, accommodations and prepared food and beverages. This sales tax was imposed for a seven year period that ended on April 30, 2014. The County expected to receive \$425,307,500 over the seven years from this sales tax. Actual collections exceeded our expectations and the total amount of revenue to the County from the Capital Projects Sales Tax for the seven years was \$446,898,897. After all of the projects are completed, if any funds remain unspent, county staff will develop a proposed project list and make a recommendation to County Council. Although not required by the state law the County has recommend that any remaining funds be earmarked for road projects.

Estimated Cost as presented in referendum	Prioritized Road Projects and status as of July 11, 2014

CAPITAL IMPROVEMENTS PROGRAM POLICIES

The Capital Improvements Program (CIP) is a short-range schedule of public improvement projects planned by County Government to occur over a five-year period and includes project descriptions, costs and sources of funding. The Capital Budget is the first year of the CIP and includes those projects for which funds have been appropriated. The subsequent four years included in the program reflect planned activity, subject to budget approval by the Council in the respective future year. These four years are subject to change due to changing circumstances and funding uncertainties, and should be viewed only as a plan. The following CIP policies are intended to guide funding decisions during the CIP review process:

1. The County will prepare and adopt a five-year Capital Improvements Program (CIP), update it annually, and make all capital improvements in accordance with the Capital Budget.
2. The County will attempt to budget as pay-as-you-go funding (current year transfer of funds from General Fund) for capital improvements an amount equal to at least 3% of General Fund operating revenues.
3. The County will annually review the adequacy of the debt service millage in relation to the need for debt funding of capital projects. This review will also include consideration of potential financial benefits of debt refundings.
4. A capital project in the CIP shall have all of the following applicable characteristics:
 - a. The project will fall in to one of the following categories:
 - the government's public infrastructure, including technology infrastructure;
 - vertical and horizontal construction;
 - vehicles and equipment with a projected useful life of more than ten years, which meet the dollar threshold criteria, exclusive of those included in an existing replacement plan;
 - major capital acquisitions which would distort financial resources trend data if not reported separately from the County's operating activities.
 - b. The project will include infrequent expenditures with an individual project cost totaling \$100,000 or more. Projects of less than \$100,000 will generally be included when required for State or Federal funding; and multiple projects in a single category, when bid as a single item of \$100,000 or more, will also be considered if they meet other applicable characteristics.
 - c. The project will result in a newly constructed facility or expanded facility or a major repair of a fixed asset.
 - d. Acquisition of land for future projects (land banking) will be eligible when it has been identified as a need in the five-year CIP, in the County Comprehensive Plan, or when it can be shown as necessary and based on recent growth trends or Council policy decisions.

5. All capital projects will be consistent with the County Comprehensive Plan, the County's Region Plans, and the approved County Facility Plans, as applicable.
6. Any capital project that is or may be the recipient of federal funding will comply with the County's Title VI Plan. The Title VI Coordinator and Department Title VI Liaison will be involved in the project development and implementation process to ensure Title VI compliance.
7. Projects scheduled in previously approved CIP's should be considered when establishing priorities for future CIP programs.
8. A Capital Improvements Program Committee (CIP Committee) will be formed to develop a staff recommended CIP to be presented to the County Council for their consideration. Technology related projects will be recommended to the CIP Committee by the County's technology steering committee. The following criteria will be used by the CIP Committee to evaluate the merits of each approved capital project:
 - a. The CIP will consider the "Community Concept" of the County Comprehensive Plan by directing capital investments to designated growth areas.
 - b. Capital projects will implement a component of an approved facility plan.
 - c. Projects will be consistent and timed with other capital projects.
 - d. Projects generally should not duplicate other County public facilities or services.
 - e. Projects will be implemented in a timely manner.
 - f. Projects will reduce the cost of operations or energy consumption whenever possible.
 - g. Projects will provide for the health and welfare of the community.
9. Eligible capital costs will include land acquisition, easements, site improvements, design, construction, inspection/overhead, equipment, project management, fiber/software/hardware costs, communications implementation costs (including data conversion), initial training costs, ancillary costs necessary to place the asset in its intended location (freight charges), and ancillary costs necessary to place the asset in its intended condition for use (installation and site preparation charges).
10. All capital costs listed in the CIP will be presented in current dollars for the initial year, then inflated when applicable for each subsequent year presented. Any change in project costs and inflation factor from the previously approved CIP must be justified in writing and include a new project summary form along with the reasons for the change in the project cost.
11. Following completion of a project, remaining surplus capital funds will revert to the capital projects fund, fund balance account, and will be allocated by the County Administrator to other approved capital projects, as appropriate. Any budget transfer within the General Capital Projects Fund from one project to another project that exceeds \$100,000 must first be approved by County Council through a resolution before the transfer is completed. These

resolutions are not required to first go through a Council Committee.

12. All new capital project requests must be submitted through the annual CIP process.
13. The County will attempt to match timing of bond issues with construction needs. Use of General Fund surplus to forward-fund projects will be limited to the extent possible. The feasibility of establishing lines-of-credit and other short-term borrowings will be investigated to control cash flow requirements.
14. Construction of a project must be forecast within two years of completion of design work or funding for design will not be approved.
15. When construction funds are approved and construction is not undertaken within two years, the CIP Committee will consider whether the project should be dropped from the Program and treated as a new request in future years, unless the project includes grant funding that has been accepted by County Council designated for said project.
16. The County funds equipment replacement reserves in various operating funds, which are not included in the Capital Improvements Plan. Vehicles and heavy equipment that represent new additions to the current fleet are included in the Capital Improvements Plan.
17. A Fleet Replacement Program is budgeted in the Fleet Internal Service Fund and provides replacement vehicles funded through user charges over a three - five year period, including funding for ambulances, police cars and other County vehicles.

A Fire Apparatus Replacement Program began in FY 2014 and is budgeted in a separate Fire Apparatus Replacement Fund. Replacement of apparatus is based on standards established by the Insurance Services Office (ISO). This replacement fund is funded through a separate dedicated millage.

Stormwater and Public Works have been budgeting an equipment replacement program for heavy equipment, which was previously budgeted in the Stormwater and General Funds, but beginning in FY 2012, this Heavy Equipment Replacement Program is being budgeted in a Heavy Equipment Internal Service Fund.

A Computer Replacement Program provides for replacing office computers on a three year cycle and is budgeted in the General Fund. A plan to convert existing desktop computers to virtual computers over time will expand this replacement cycle.

CIP REVIEW PROCESS

Review and Adoption of CIP Policies - In September, the County Council reviews and adopts CIP policies that will guide funding decisions during the CIP review process.

Departmental Submittal - In October, capital projects requested for the next five years are submitted by all departments for review. The CIP Committee carries out this review.

Staff Recommended CIP - The CIP Committee reviews all the departmental requests and then prepares a staff-recommended CIP based upon a number of factors which include: consistency with the Comprehensive Plan; projected populations and development; consistency with the last approved CIP; current funding resources; and debt affordability.

County Planning Commission Review - The Planning Commission reviews the Staff-Recommended CIP for consistency with the Comprehensive Plan, timing of projects and their need. A public hearing is held in which the public may make comments. Departmental directors are also present to comment on the CIP. The comments of the Planning Commission are submitted to the County Council for their consideration.

County Council Public Hearing – Several public meetings are held on the CIP and Capital Budget (first year of the CIP) prior to the hearing. A public hearing is held on the County Council Proposed Capital Budget in June.
